**SPRINGER NATURE**

**Nature Reviews' clinical content is written by internationally renowned clinical academics and researchers and targeted towards readers in the medical sciences, from postgraduate level upwards. In-depth Reviews present authoritative, up-to-date information on a topic, placing it in the context of a field's history and development. Topical discussion and opinions are offered in Perspectives and News & Views articles, and in the Research Highlights section the editors filter primary research from a range of specialty and general medical journals.**

ISSN: 1759-5002

An official publication  
of the World Heart  
Federation

## **Nature Reviews Cardiology**

Chief Editor: Gregory Lim, PhD

**Impact Factor: 9.183\***
