SCIENTIFIC AMERICAN™

Build your institution's collection with a site license to *Scientific American*

www.nature.com/scientificamerican

SPRINGER NATURE

Scientific American & Scientific American Mind

Scientific American has been reporting on unique insights and inspiring developments in science and technology for more than 165 years. As the longest continuously published magazine in the United States, readers from around the world turn to *Scientific American* for a deep understanding of how science and technology shape our future.

Every month the magazine features cutting-edge articles by scientists, many of who are Nobel Prize winners and top journalists.

With an expertise for pinpointing emerging trends, *Scientific American* covers important ideas early, and charts the path for students, researchers, individuals and policy makers that are searching for answers to today's most challenging and complex questions.

Topics covered include:

- alternative energy & sustainability
- environmental science
- biotechnology & ethics
- medical research
- technology advancements
- civil infrastructure

Published bi-monthly, **Scientific American Mind** focuses on the science of what makes humans, "human". Expert authors cover a variety of topics, including articles on behavior and pain management, how genetics affects our everyday lives, whether multitasking saves time, and the latest findings on ADHD, depression and stress.

Included in site license access

Scientific American is ideal for institutional customers that require unlimited, concurrent access for their users.

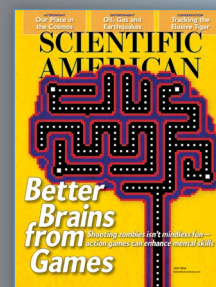

A *Scientific American* site license includes online access to the latest issues of:

- *Scientific American* – 12 issues per year
- *Scientific American Mind* – 6 issue per year
- Special issues

Users are granted access to all material from the current year, plus rolling access to four years of content preceding the license supply period.
