Mathematics and Statistic
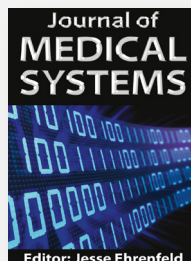

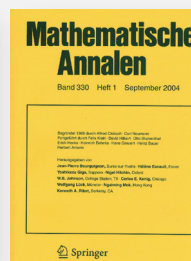

Springer Journal Collection

Springer's Mathematics and Statistics program is world-renowned and comprises over **175** journals with many bestselling titles. With a portfolio covering a broad range of subject areas from core topics such as algebra, analysis, and geometry, probability and statistics to the recent and rapidly developing areas of mathematical biology, computational science & engineering, and quantitative finance, Springer is the market leader in mathematics and statistics publishing. An abundant selection of top-notch titles by award-winning authors comprises the Springer Mathematics & Statistics portfolio, with thousands of publications dating back to 1921. The collection of these journals and eBooks can be found on SpringerLink, the world's most comprehensive online collection of scientific, technological and medical journals, books and reference works.
