

The Breast Cancer Research Foundation

eBook distribution factsheet

The Breast Cancer Research Foundation® (BCRF) is an independent, not-for-profit organization whose mission it is to achieve prevention and a cure for breast cancer in our lifetime by providing critical funding for innovative clinical and translational research at leading medical centers worldwide.

Since its inception in 1993, **BCRF** has raised more than \$380 million to support research at medical institutions across the globe conducting the most advanced and promising breast cancer research that will help lead to prevention and a cure in our lifetime.

The Foundation's grant making philosophy and support for promising yet untried ideas is a crucial component of breast cancer research.
