

Springer eBook Collection Economics and Finance

Across government, industry and academia, understanding the nuances of our economic system is vital to ensure growth, stability and prosperity. With turbulent economic times giving way to an uncertain future in many parts of the world, it is imperative that researchers and economists have access to up-to-date knowledge that supports progression in Economics and Finance.

Including high quality content from Palgrave

The Economics and Finance collection is a new package, starting with the copyright year 2016. Books published prior to 2016 in Economics and Finance are available through the Springer Economics and Finance collection and the Palgrave Economics and Finance collection.

Economics and Finance is a growing collection with over 480 new titles to be published in 2016. Science monographs, handbooks, book series and textbooks contribute to study at all levels and, crucially, to professional understanding among practitioners, managers and consultants.

Palgrave's Economics list presents the latest thinking in key areas of research. Our development economics list features titles from the ILO, IMF, UNRISD and the collection features the latest research in monetary and fiscal policy, growth, employment and environmental economics.

The impressive collection provides users with top names, cutting-edge research and important thinking on global economic and financial topics.

The renowned professional management publications are especially valued by managers in a plethora of different industries. Springer publications in Operations Research lead the way in this niche area.

Why Springer eBooks in Economics and Finance Collection?

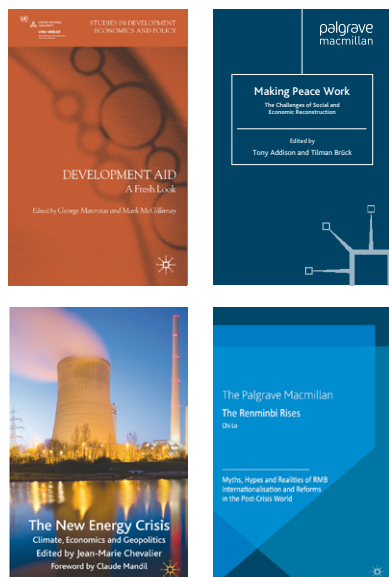

Since 1842 Springer has led the way in publishing the latest scientific research. Its books and journals have played an instrumental part in progressing key areas of science and are read by millions of scientists, researchers, students and educators across the academic and corporate worlds. With such a significant publishing legacy, Springer is home to many of the world's foremost researchers. Leading figures that have published in Springer's eBooks in Economics and Finance collection include:

Reinhard Selten, Nobel Prize Winner and **Robert Aumann**, Nobel Prize Winner
