

SharedIt Terms and Conditions

Our support for personal content sharing is laid out in our SharedIt Principles and Guidelines (www.springernature.com/sharedit). We support a reasonable amount of sharing of content by authors, subscribers and authorised users ("Users"), for small-scale personal, non-commercial use provided that you maintain all copyright and other proprietary notices. By using the unique SharedIt URL ("shareable link"), you agree to these terms of use ("Terms"). For these purposes, Springer Nature considers academic use (by researchers and students) to be non-commercial.

These Terms are supplementary and will apply in addition to any applicable website terms and conditions and the [principles and guidelines](#) ("Principles and Guidelines") on sharing of Springer Nature subscription content, a relevant site licence or a personal subscription. These SharedIt Terms of Use will prevail over any conflict or ambiguity with regards to the relevant terms, the Principles and Guidelines, a site licence or a personal subscription (to the extent of the conflict or ambiguity only). By sharing, or receiving our content from a shared source, Users agree to be bound by these SharedIt Terms of Use.

We collect and use personal data to provide the SharedIt service. We may also use these personal data internally within Springer Nature and as agreed share it, in an anonymised way, for purposes of tracking, analysis and reporting. We will not otherwise disclose your personal data outside the Springer Nature group unless we have your permission as detailed in our [Privacy Policy](#).

Users may occasionally share a shareable link to a read-only version of the full text article. Permitted use cases are laid out in our [Principles and Guidelines](#). Furthermore, Users may, and are strongly encouraged to, include the official SharedIt logo strictly in conjunction with the shareable links.

Recipients will need to be able to receive the shareable link and view it on the website through technology provided by Readcube. Please ensure that you have the express consent of the recipient to send the link to their email address or contact details. Users may not use the shareable links or the SharedIt service to abuse, harass, intimidate or where such use may be in breach of confidentiality or another person's privacy or other rights, or of any duty owed by you. In using the shareable links or the SharedIt service you should not impersonate another person or otherwise misrepresent your identity, affiliation or status;

Users and the recipients of the shareable link, may not:

1. use the SharedIt service or shareable links for the purpose of providing other users with access to content on a regular or large scale basis or as a means to circumvent access control;

2. use the ShredIt service or shareable links where to do so would be considered a criminal or statutory offence in any jurisdiction, or gives rise to civil liability, or is otherwise unlawful;
3. falsely or misleadingly imply or suggest our endorsement, approval, sponsorship, or association unless explicitly agreed to by us in writing;
4. use bots or other automated methods to access the ShredIt facility or redirect messages; or
5. override any security feature or exclusionary protocol.

These terms of use are reviewed regularly and may be amended at any time. We are not obligated to publish any information or content and may remove it and the shareable links or any ShredIt features or functionality at our sole discretion, at any time with or without notice. We may revoke this licence to you at any time and remove access to any copies of the shared content or shared links which have been saved.

Sharing of our content via ShredIt may not be done in order to create a substitute for our own products or services or a systematic database of our content. Furthermore, we do not allow the creation of a product or service that creates revenue from our content or its inclusion as part of a paid for service or for other commercial gain. ShredIt cannot be used for inter-library loans and librarians may not upload ShredIt links on a large scale into their, or any other, institutional repository.

Please note that these rights do not automatically extend to content, data or other material published by Springer Nature that we license from third parties.

If you intend to distribute our content to a wider audience on a regular basis or in any other manner not expressly permitted by these Sharing Terms of Use please contact us at shredit@springernature.com.
