

What sets AdisInsight apart from other resources is our ...scientific expertise

Unlike our competitors, *we don't just "copy and paste" or add unnecessary information* in a bid to have the biggest database. Our focus is on **quality and relevance**, which is achieved by following a methodical approach to identifying, evaluating and summarizing content.

scientific expertise

Editorial Review

Monitoring

We continuously monitor a variety of global sources to identify **new data**.

Assessing

New data is reviewed and assessed to **extract relevant information**, based on its significance and scientific merit.

Categorizing

Detailed and consistent **indexing** is applied to support highly focused searching

Validating

Information is verified across multiple sources to **resolve discrepancies** and remove bias.

Expert Summaries

Concise narratives tell the story, using the **most compelling evidence**, and cutting out unnecessary noise.

Easy-to-use Database

AdisInsight brings together the most essential scientific information to support you at **every stage** of the drug lifecycle.

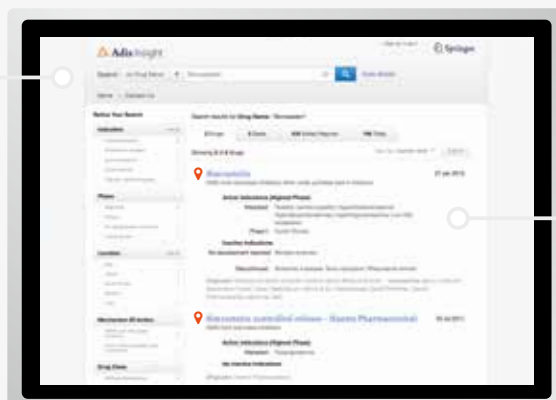

Discover:

-  Scientific and market information on **drugs** in commercial development worldwide
-  Key clinical **trials** being performed to advance these drugs through international regulatory pathways
-  **Deals** undertaken including acquisitions joint ventures and collaborations
-  **Safety** records, including adverse drug reaction case reports and regulatory news

 The **user-friendly** platform is designed to help you find the information you need, whether you prefer to browse or search.

Results

Getting the **answers you need** from AdisInsight is simple, no matter how specific or broad your enquiry is.

Whatever your involvement in the world of drug-development, you need **reliable data** to help you make informed decisions.
