

# FAQ: The Statesman's Yearbook is Moving

---

## 1.0 What's happening?

*The Statesman's Yearbook* will be migrating from its current platform, and will therefore be permanently hosted exclusively on [SpringerLink](#).

## 2.0 When will the changes take effect?

The site will fully migrate on Friday, 1<sup>st</sup> June 2018. After this point, content and usage reports will not be available to access from <http://www.statesmansyearbook.com/> as the platform will be permanently closed.

## 3.0 Why the change?

We see this as a positive move. Not only does the new platform provide enhanced SEO, meaning greater discoverability, it comes with a whole host of user experience benefits including:

- Clean, reader-friendly design
- Exceptionally fast downloads and reliable usage reporting
- Added ability to search across the SpringerLink catalog
- Better referencing functionality (EndNote, JabRef, Mendeley, Papers, Zotero, BibTeX)
- Better display of content including mathematical equations
- Easier admin and access

## 4.0 What impact will this have on me and do I need to do anything?

We anticipate minimal impact on our customers. However, outlined below is further information and instructions on how to access and download reports before the migration takes place. Please ensure these actions are undertaken before 1<sup>st</sup> June 2018.

### 4.1 Existing Subscriber:

#### 4.1.1 Subscription & Content Access:

- Your subscription terms as outlined in your license agreement remain the same and are granted to the Statesman's Yearbook-content on SpringerLink.
- The content is available on SpringerLink in annual volumes. A minority of the content available on [statesmansyearbook.com](http://statesmansyearbook.com) will be available later. This includes Essays and Focusses by Barry Turner, city profile overviews, biographies and some infographics.

#### 4.1.2 Stored URLs:

- [statesmansyearbook.com](http://statesmansyearbook.com) will be redirected to <https://link.springer.com/bookseries/15683>. However, to increase performance for your users we advise you to update your catalogue records.
- MARC records can be downloaded through <https://adminportal.springernature.com/metadata/books>. Please select "The Statesman's

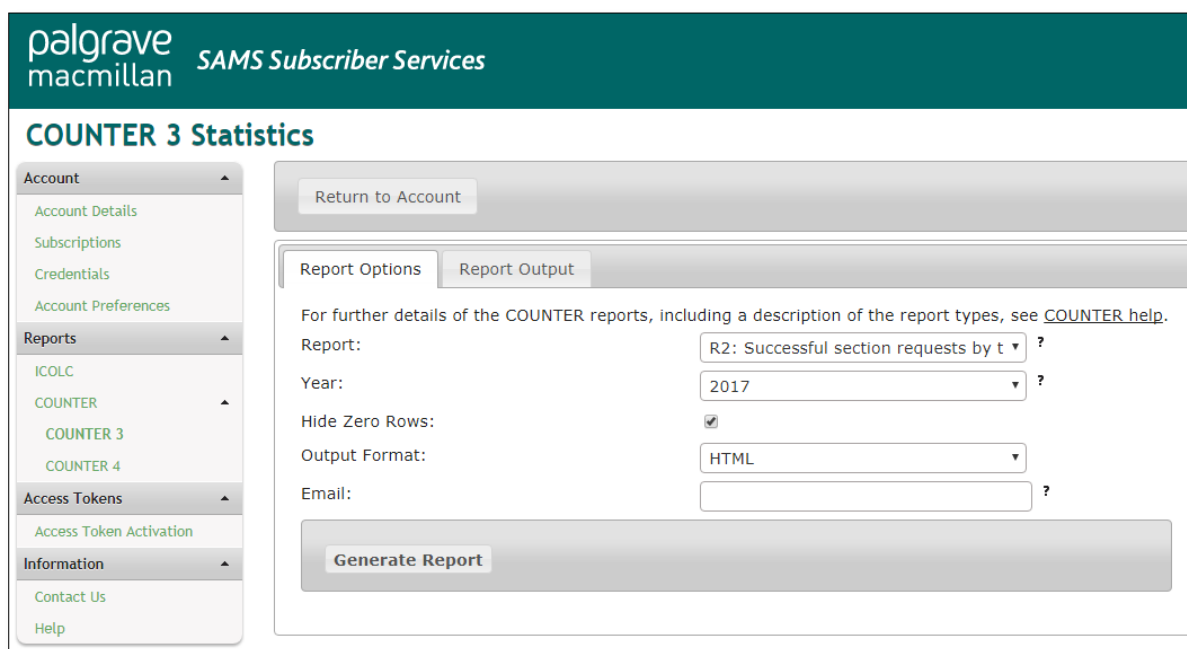

Yearbook” under the series tab and select the years that you have subscribed to in order to download the MARC records.

#### 4.1.3 Usage Reports & Admin Portal:

- Usage Reports will no longer be available on statesmansyearbook.com.
- Visit statesmansyearbook.com in advance of site closure to download any historical usage reports – do this before the site change!
- Usage reporting will consequently be available via the Springer Admin Portal but will only be representative of usage from the new hosting platform, displaying only from 1<sup>st</sup> June 2018 onwards.

#### 4.1.4 Downloading Reports:

- Go to <http://subs.sams.pm.semcs.net/> and login as normal.
- Use left-hand menu, click on ‘Reports’, then ‘COUNTER’ and select your parameters then ‘Generate Report’ button.

## 4.2 Previous Subscriber (who took out a subscription on or after 1<sup>st</sup> January, 2015)

Please see section 4.0 above for instructions on how to access your admin account, the same applies regardless of whether you have an existing subscription or not.
