BENEFITS TO SHARING RESEARCH DATA

BENEFITS FOR INDIVIDUAL RESEARCHERS

- More citations
- Greater discoverability
- Increases visibility
- Improves output connections
- Reduces inefficiencies
- Improves credibility
- Increases usage
- Longevity of research

BENEFITS FOR RESEARCH COMMUNITIES

- Advances reproducibility
- Increases collaboration
- Reduces unneeded experiments
- New collaboration opportunities
- Improves future research
- Improves long-term archiving
- Enables replication

BENEFITS FOR SOCIETY

- Enables public understanding
- Greater understanding of research
- Increases trust in research
- Advancement of research
- Improves links with industry
- Easier access to research
- Improves links with industry
- Increases collaboration
- Greater recognition

Economic benefits

- Economic benefits
- Promotes citizen science
- Informs policy
- Innovation increases
- Advancement of research
