Abstract: This is the general template file for LaTeX submissions to Springer journals which can be used to prepare submissions for Celestial Mechanics and Dynamical Astronomy.

This template includes a few options for different layouts and content for various journals. Please consult the [Springer author guidelines for this journal](#) as needed.

Once your manuscript is complete, simply use the "Submit to Journal" option in the Overleaf editor to submit your files directly to the journal for processing.

If you're new to LaTeX, check out our [free online introduction](#) to help you get started, or please [get in touch](#) if you have any questions.
