Research and learning are the cornerstones of progress, and publishing plays an integral part in both. Springer Nature Group opens the doors to discovery for researchers, educators, clinicians and other professionals. We provide trusted insights and ensure verified knowledge is easy to find, understand, use and build upon. Ensuring the world makes as much progress in the next 150 years as it has in the last; improving and enriching our lives and helping to protect our planet for future generations.

As validators and curators of the academic record we bring independence and rigour to all we do.

- Our brands and imprints have been trusted sources of knowledge for over 180 years
- Our approx. 9,000 colleagues work with a network of 90,000 editors and 750,000 peer reviewers to scrutinise more than 1.4 million submissions a year
- In 2021 we published 13,000 books, 400,000 articles, 149,000 OA articles and 3,000 journals
- There are more than 1 billion downloads a year from our websites and platforms

Open Access is a crucial step towards an open science ecosystem, in which published data and research can be accessed and used by everyone, around the globe:

- In 2021 we reached the milestone of 1 million published OA articles – more than any other publisher
- We paved the way for Transformative Agreements and have the world’s most comprehensive OA portfolio
- We continue to advance open research, developing Transformative Journals (TJs), and have committed to making half of our published output OA by 2024
- We enabled free access to over 70,000 Covid-related articles, book chapters, reference works and protocols

We work closely with the global research community to help them make progress on the world’s biggest challenges.

- We publish dedicated journals and reference works in support of the UN’s Sustainable Development Goals (SDGs) and have established our own SDG programme
- We provide evidence-based insight and analysis to the global media via Nature and Scientific American
- We connect researchers, policymakers and practitioners through events and new publishing formats

A FEW OF OUR BRANDS AND IMPRINTS:

**Springer Nature**

1 BILLION DOWNLOADS A YEAR FROM OUR PLATFORMS

**DEPLOYING TECHNOLOGY**

- We are deploying advanced technologies, including AI to improve outcomes.
  - Around 90% of our journal revenue and c.70% of Research division revenue is from digital products
  - We have reduced accept-to-publish times by around 60% over 15 years
  - We deploy technology to support researchers with editing, translation, content sharing and online training
  - We published the first machine-generated research book

**LEADING IN OPEN ACCESS**

- We have published over 1 million OA articles

**PURPOSE DRIVEN**

- Leadership position in almost all SDG areas

**TRUSTED SOURCE OF KNOWLEDGE**

- As validators and curators of the academic record we bring independence and rigour to all we do.
  - Our brands and imprints have been trusted sources of knowledge for over 180 years
  - Our approx. 9,000 colleagues work with a network of 90,000 editors and 750,000 peer reviewers to scrutinise more than 1.4 million submissions a year
  - In 2021 we published 13,000 books, 400,000 articles, 149,000 OA articles and 3,000 journals
  - There are more than 1 billion downloads a year from our websites and platforms

**OUR ROLE IN RESEARCH**

Since 1842 we have been advancing discovery by providing the best possible service to the whole research community. We help researchers uncover new ideas by ensuring all the research we publish is significant, robust and stands up to objective scrutiny.

GROUNDED IN THE COMMUNITIES WE SUPPORT

We stay grounded in the needs of our communities, partnering with them to provide the content and solutions they need to make real and sustainable progress.

RESEARCHERS AND SCIENTISTS

We are committed to providing the best possible service to the whole research community. Our books, journals, data and services provide quality content and solutions to researchers in academia and scientific and corporate institutions, helping them to uncover new ideas and advance discovery for the next generation.

CLINICIANS AND HEALTHCARE PROFESSIONALS

We support research into new drugs and treatments by publishing the latest research and data and curating key advances across all clinical areas. We also provide the community with learning programmes, platforms and publications to help them advance throughout their professional careers.

EDUCATORS AND LEARNERS

We build strong relationships with education communities around the world. As well as providing the highest quality books, content and tools to help learners progress, we help educators with teaching resources for english language and K–12 curriculum.

PROFESSIONALS

Our businesses and brands equip professionals the knowledge and support they need to achieve their potential throughout their careers. Our portfolio includes learning, services and publications that support the needs of professionals in medicine, engineering, management, legislation and road safety education.

TAKING RESPONSIBILITY

We take our global responsibility to our communities, employees and society extremely seriously. Our scale, relationships and convening power enable us to support delivery of the 17 sustainable development goals (SDGs). We act as a responsible business, and have been carbon neutral for our direct operations (offices, warehouses, fleet and flights) since 2020. We have set ambitious targets including:
- We will set science-based targets to be net zero across our whole value chain by 2040
- Champion diversity, equity and inclusion, and improve representation in our leadership, with an aim that 45% of our senior leadership are women by 2023, and race and ethnicity representation goals under development

LED BY AN EXPERIENCED TEAM

Springer Nature is led by an experienced management team and a committed Supervisory Board, with a proven track record of leading innovation, scaling businesses, expanding distribution and managing global operations. Our global footprint helps leverage our experience and significant customer base to enable us to identify and respond to opportunities to innovate and add value to our current and future customers.
