

Save time finding the information you need on drugs in development

Did you know that we have a subscription to [AdisInsight](#)? This entitles you to access this invaluable research resource – so please do make use of it!

What is AdisInsight?

[AdisInsight](#) is a database for drug research and development, disease treatment and decision making, based on scientifically sound data.

Start using [AdisInsight](#) today and you will:

- **Make better informed decisions.**
Gain a greater perspective of the drug landscape with a single search working across a vast library of records.
 - **Gain a competitive advantage.**
Stay at the forefront of your area by adapting your research focus according to the most compelling new information.
 - **Improve work efficiency.**
Reduce the time taken to answer critical questions with easily digestible, consolidated scientific and commercial data.
 - **Get timely access to expert narratives.**
Information is assessed and consolidated from multiple sources, so you can completely trust the content.
 - **Align efforts to improve patient care.**
AdisInsight makes expertly-written drug information more accessible to everyone, no matter what your background. It therefore provides a shared knowledge base to help in translating research into practice.
