HOW TO PLACE AN ORDER ON PLSCLEAR

FAQS

This guide provides specific instructions on how to place permission requests via CCC's platforms (RightsLink and Marketplace), and PLSClear. Please note, each publisher may implement their permission system in a different manner than specified below. This guide may not be applicable to non-Springer Nature permissions requests.

HOW TO PLACE AN ORDER ON RIGHTSLINK

RightsLink may be accessed by clicking on the 'Reprints and Permissions' link available at the end of each article or chapter page hosted on either <https://www.nature.com/> or <https://link.springer.com/>

FINDING RIGHTSLINK ON NATURE.COM

On Nature.com the RightsLink button may also be found in the 'Sections' menu, on the right side of the article webpage, under **Rights and Permissions**.

Connectivity underlying motor cortex activity during goal-directed behaviour

Arseny Finkelstein , Kayvon Daie, Márton Rózsa, Ran Darshan & Karel Svoboda 

Nature (2025) | [Cite this article](#)

2923 Accesses | 21 Altmetric | [Metrics](#)

Abstract

Neural representations of information are shaped by long-range input and local network interactions. Previous studies linking neural coding and cortical connectivity have focused on input-driven activity in the sensory cortex^{1,2,3}. Here we studied neural activity in the motor cortex while mice gathered rewards with multidirectional tongue reaching. This behaviour does not require training, allowing us to probe neural coding and connectivity before activity is shaped by extended learning. Motor cortex neurons were tuned to target location and reward outcome, and typically responded during and after movements. We studied the underlying network interactions in vivo by estimating causal neural connections using an all-optical method^{3,4,5,6}. Mapping connectivity between more than 20,000,000 excitatory neuron pairs showed a multi-scale columnar architecture in layer 2/3 of the motor cortex. Neurons displayed local (less than 100 μm) like-to-like excitatory connectivity according to target-location tuning, and inhibition over longer spatial scales. Connectivity patterns comprised a continuum, with abundant sparsely connected neurons and rare densely connected neurons that function as network hubs. Hub neurons were weakly tuned to target location and reward outcome but influenced more neighbouring neurons. This network of neurons, encoding location and outcome of movements to different motor goals, may be a general substrate for rapid learning of complex, goal-directed behaviours.

Most Nature content, including comments, letters, news and views etc. now include the "Reprints and Permissions" link at the bottom of the article webpage. If they do not, please email journalpermissions@springernature.com for further information.

FINDING RIGHTSLINK ON SPRINGER NATURE LINK

Search for the **article** or **book chapter** on the Springer Nature Link website. The RightsLink button may be found in the “Rights and Permissions” section at the bottom of the article/chapter page, or in the side bar.

Please note that there is no link to RightsLink on the journal or book level page, so it is important to find the correct article or chapter.

About this article		

Rights and permissions

Springer Nature or its licensor (e.g. a society or other partner) holds exclusive rights to this article under a publishing agreement with the author(s) or other rightsholder(s); author self-archiving of the accepted manuscript version of this article is solely governed by the terms of such publishing agreement and applicable law.

[Reprints and permissions](#)

HOW TO FILL OUT THE RIGHTSLINK REQUEST FORM

Once you have accessed RightsLink you will be redirected to the permission request form.

You must first select what type of reuse you are requesting permission for, which will then generate your licence type:

The screenshot shows the RightsLink website interface. A dropdown menu is open, displaying various reuse options. The options include: reuse in a medical communications project, reuse in a clinical trial, reuse in promotional materials/pamphlet/brochure, reuse in a presentation/slide kit/poster, post on a website, reuse in conference proceedings, reuse in training materials/CME materials, reuse in a book/textbook, reuse in a journal/magazine, reuse in a Springer Nature imprint, reuse in newsmedia, reuse in a dissertation/thesis, reuse in a coursepack/classroom materials, make photocopies, reuse in an annual report, reuse a Springer Nature journal cover, and I don't see my intended use. The 'make a selection' option is highlighted at the bottom of the dropdown. The background shows the RightsLink logo and a 'Sign In/Register' button.

The screenshot shows the 'Quick Price Estimate' form on the RightsLink website. The form includes a 'PLEASE NOTE' section and several dropdown menus for selecting reuse details. The 'PLEASE NOTE' section states: 'This service provides licences or permission to reuse content only. If you do not have a copy of the article you are reusing content from, you may copy and paste the content from any legally accessible source and reuse according to the terms of your licence. To purchase the article's PDF please visit either Link.springer.com or Nature.com.' The 'PLEASE NOTE' section also includes a note about STM Permission Guidelines (PG) Signatory and a link to the STM signatories list. The form fields are: 'I would like to...' (reuse in a journal/magazine), 'I am a/an...' (make a selection), 'My format is...' (make a selection), 'I would like to use...' (make a selection), 'Circulation/distribution' (make a selection), 'Are you the author of this Springer Nature content?' (make a selection), 'I will be translating...' (make a selection), 'Will your content be published as Open Access?' (make a selection), and 'My currency is...' (USD - \$). A 'PRICE: Pending' status is shown, and a 'CONTINUE' button is at the bottom. A 'Terms and Conditions' link is also present.

Fill in the details of the new work to your best knowledge.

Authors requesting to reuse their own content should select “I am an academic” or “I am a publisher, for profit” in the “I am a/an...” field. They must then select YES in the “Are you the author...” prompt. Nature authors cannot do this as CCC cannot issue author reuse licences for them. Such rights will be included in the author’s LTP/Copyright Transfer Statement.

REQUESTING PERMISSION UNDER THE STM PERMISSIONS GUIDELINES

If you are republishing with an STM Permissions Guidelines Signatory Publisher, you must “select “Publisher, STM” in the “I am a/an” box. Continue to fill out the form and click “Continue” to provide further information, including who you are publishing with. A full list of STM Permissions Guidelines Signatories and the STM Permissions Guidelines rules may be found here:

<https://stm-assoc.org/what-we-do/core-services/ip-copyright/permissions/permissions-guidelines/>

Quick Price Estimate

This service provides licences or permission to reuse content only.
If you do not have a copy of the article you are reusing content from, you may copy and paste the content from any legally accessible source and reuse according to the terms of your licence.
To purchase the article's PDF please visit either [Link.springer.com](https://link.springer.com) or [Nature.com](https://www.nature.com).

PLEASE NOTE: If you are publishing with an STM Permission Guidelines (PG) Signatory, please select requestor type 'publisher' and publisher's name from drop down menu. If you are an individual academic publishing with a non-STM PG publisher, please select 'academic/university or research institute'.
To view a list of the STM signatories, please visit <https://www.stm-assoc.org/permissions-guidelines/>

CONTINUE

Please note if you do not have an account you will need to create one to continue. A RightsLink account is necessary even if permission will be granted for free.

HOW TO USE A DISCOUNT CODE

After completing all these steps, you will arrive at the order review page.

Here you can:

- Ensure all information is accurate
- Review the terms and conditions
- Place the order
- Input a discount code.

If you are provided with a discount code you may input it into the customer code box, then click “Apply Code”

☐ I agree to these [terms and conditions](#).

☐ I understand this license is for reuse only and that no content is provided.

Promotion Code

[Apply Code](#)

Total: 982.19 USD

Once you have placed the order/completed the payment, you will receive a confirmation email and receipt from CCC within 24 hours. This email shall have your licence attached and concludes the permission process.

HOW TO EDIT ORDERS BEFORE PRICING

If you need to edit your permission request BEFORE the Publisher provides a final price, go to the RightsLink “My Account” and click on the order number for the order you wish to edit

My Orders > Orders > All Orders

My Orders

Orders

Billing History

Payable Invoices

SEARCH

☐ Order Number:

☒ Date Range: From To

View: ☒ All ☒ Saved Quotes ☒ Response Required ☒ Pending ☒ Completed ☒ Canceled ☒ Denied ☒ Credited

Results: 1-1 of 1

Date	Article Title	Publication	Type Of Use	Price	Status	Expiration Date	Order Number
4-Dec-2025	William Talbott's Which Rights Should be Universal?	Human Rights Review	Journal	Not Available	Order Pending		502034076

From the “Order Details” page, click “Edit Order” and follow the workflow, making changes where necessary. Your previous selections will change.

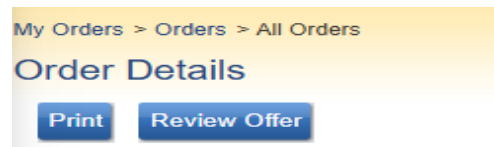

HOW TO EDIT ORDERS AFTER PRICING

To edit your order AFTER the publisher has approved your request and provided pricing, you’ll need to appeal directly to the publisher to make changes.

Go to RightsLink “My Account” and click on the order number for the order you want to edit (see below).

Date ▼	Article Title	Publication	Type Of Use	Price	Status	Expiration Date	Order Number
4-Dec-2025	William Talbott's Which Rights Should be Universal?	Human Rights Review	Journal	79.00 \$	Offer Approved		502034076

Then click “Review Offer” on the Order Details page

From the “Review Offer” page, you can communicate directly with the publisher by clicking “Contact publisher” at the bottom of the page. Enter your request for changes in the “New Comment” text box, add any relevant attachments and click “Send.”

Contact Publisher

Please [review](#) your order if there is a need.

Adding a comment to an approved request will require the publisher to review and reapprove. You will not be able to purchase a license until the publisher reapproves your request.

HOW TO PLACE AN ORDER ON MARKETPLACE

If the title is unavailable on RightsLink or you are looking for derivative/ancillary rights, you may wish to place a permission request via CCC Marketplace.

Go to <https://marketplace.copyright.com/rs-ui-web/mp> to place your order. As this platform is handled on a journal/book level please search by the **title of the journal/book**, or for a more accurate search use the **Content ISSN/ISBN**.

The screenshot displays the CCC Marketplace website interface. At the top, the logo 'CCC Marketplace' is visible alongside a 'Sign in/Register' button and icons for help, search, and a shopping cart. The main banner area features the text 'Start your search' and 'Marketplace is your source for copyright permissions, content, and reprints.' Below this is a search bar with a dropdown menu set to 'All types' and a search input field containing the text 'Cellular localization of human p53 expressed in the yeast Saccharom...'. To the right of the search bar are links for 'Advanced search' and 'Search tips'.

Below the search bar, the results section shows 'Filter your results:' with 'No filters are available' and a summary: '0 publications and 1 articles/chapters matched your search term(s)'. A 'Hide filters' link is also present. The 'Article/Chapter Results' section is titled 'Sort by Relevance' and displays the following information for the first result:

Cellular localization of human p53 expressed in the yeast *Saccharomyces cerevisiae*: effect of NLSI deletion.
Salma, Abdelmoula-Souissi; AgnÃ¨s, Delahodde; Monique, Bolotin-Fukuhara; Ali, Gargouri; Raja, ...More
Apoptosis : an international journal on programmed cell death, 01 Jul 2011, Vol. 16, Issue 7, pages 746 - 756
ISSN: 13608185
DOI: 10.1007/s10495-011-0607-z
PMID: 21553245
Publisher: KLUWER ACADEMIC PUBLISHERS (BOSTON); Springer US; SPRINGER NEW YORK LLC
Language: English
Country: United States of America
URL: <http://link.springer.com/10.1007/s10495-011-0607-z>
[Details >](#)

At the bottom of the result card, there are three buttons: 'Request Reprints/ePrints', 'Request Single Copy', and 'Request Permission >>'.

Click **Request Permission** on the title required. Then select your type of use and what type of requestor you are ("I represent or am a...") and fill in the form per your requirements.

EDITING AN ORDER ON MARTKETPLACE

Requestors can edit special requests within the **Manage Account** tab.

Requestors can make changes to a request if prompted by a Publisher, rather than having to cancel the original request and submit a new one. The editing special requests process is as follows:

1. From within **Manage Account** select **edit** and navigate to the request details page. Here you can make updates, including new work and original content questions.

All fields can be edited except the Type of Use (TOU) (e.g. 'Republish in a Book'). If an error was made inputting this field the request should be cancelled and resubmitted.

2. Updates will then be submitted to the Publisher for review
3. If changes to the request result in a priced response, customers can add the item to their cart and check out. The original request is then closed and marked as **“converted to a priced item.”**

FAQs

1. **How do I know if I am requesting from an STM Permission Guidelines Signatory?** Visit <https://www.stm-assoc.org/intellectual-property/permissions/permissions-guidelines/> for a current list of STM Permissions Guidelines signatories. Ensure you identify yourself as a 'publisher' and select 'Springer Nature' from the publisher lists provided when inputting a request on either Marketplace or RightsLink.
2. **An author would like to reuse content from one Springer Nature publication in another Springer publication (requestor is not the original author).** Requestors should select Reuse in a Springer Nature Imprint.
3. **A requestor would like to reuse Springer Nature content for a publication/project sponsored by a pharmaceutical company.** Requestor should select the appropriate type of reuse, and in the full order entry page select 'yes' to sponsored by pharma.
4. **A textbook publisher would like to reuse Springer Nature content for a new book including 6 translations.** Requestor should access the Republication licence available on www.marketplace.copyright.com to obtain additional rights.
5. **A requestor is confused by Springer Publishing Company and Springer Nature.** Springer Publishing Company is a separate business and has no affiliation with Springer Nature.
6. **CC-BY 4.0 content:** You will receive a notice from RightsLink if you attempt to licence CCBY content informing you that such reuse does not need permission if the original work is properly attributed.
NOTE: IF THE CONTENT IS CC-BY-NC/ND/SA other limitations apply, and such reuse may need permission.
7. **I don't know my circulation/distribution:** contact the editor of the new journal/book to provide this information, if this is unavailable, make your best estimation.
8. **The requestor would like the price in their own territory's currency.** Both RightsLink and Marketplace can provide prices in most currencies.

For specific questions on how to get permission for Springer Nature content please contact journalpermissions@springernature.com or bookpermissions@springernature.com
