Online Resource 1 - Numerical Rating Scales Used In Data Collection Form (with 0 and 10 endpoint definitions)

Effectiveness compared to face to face appointments (*please circle*):

1. Was time available adequate for the consultation?

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

Very insufficient time Ideal length of time

2. Was relevant history obtained?

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

No relevant history obtained All relevant history obtained

3. Were physical exam findings obtained? (*Please also tick if patient self-reported only* ☐)

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

Not able to examine All relevant examination completed

4. Was the remote consultation ideal to achieve a management plan for this patient?

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

No management plan possible Full management plan achieved

5. How would you rate the overall quality of communication possible during this consultation?

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

No relevant communication possible All relevant communication completed
