A clear plastic container, likely a terrarium or a small greenhouse, is shown. It has a red lid and a red base. The container is filled with dark soil. A red tag is attached to the lid. The container is sitting on a red base. The background is a blurred indoor setting.

Figure 3. Samples before burial with soil.

Figure 4 and 5. Experiment with cross-linked grids, to prevent animal interference.

Figure 6. Experiment in its final location outside.

Figure 7: Shell found during the experimental process.

Figure 8. Example genetic profile for C₁SALS, where there is a loss of 4 alleles.

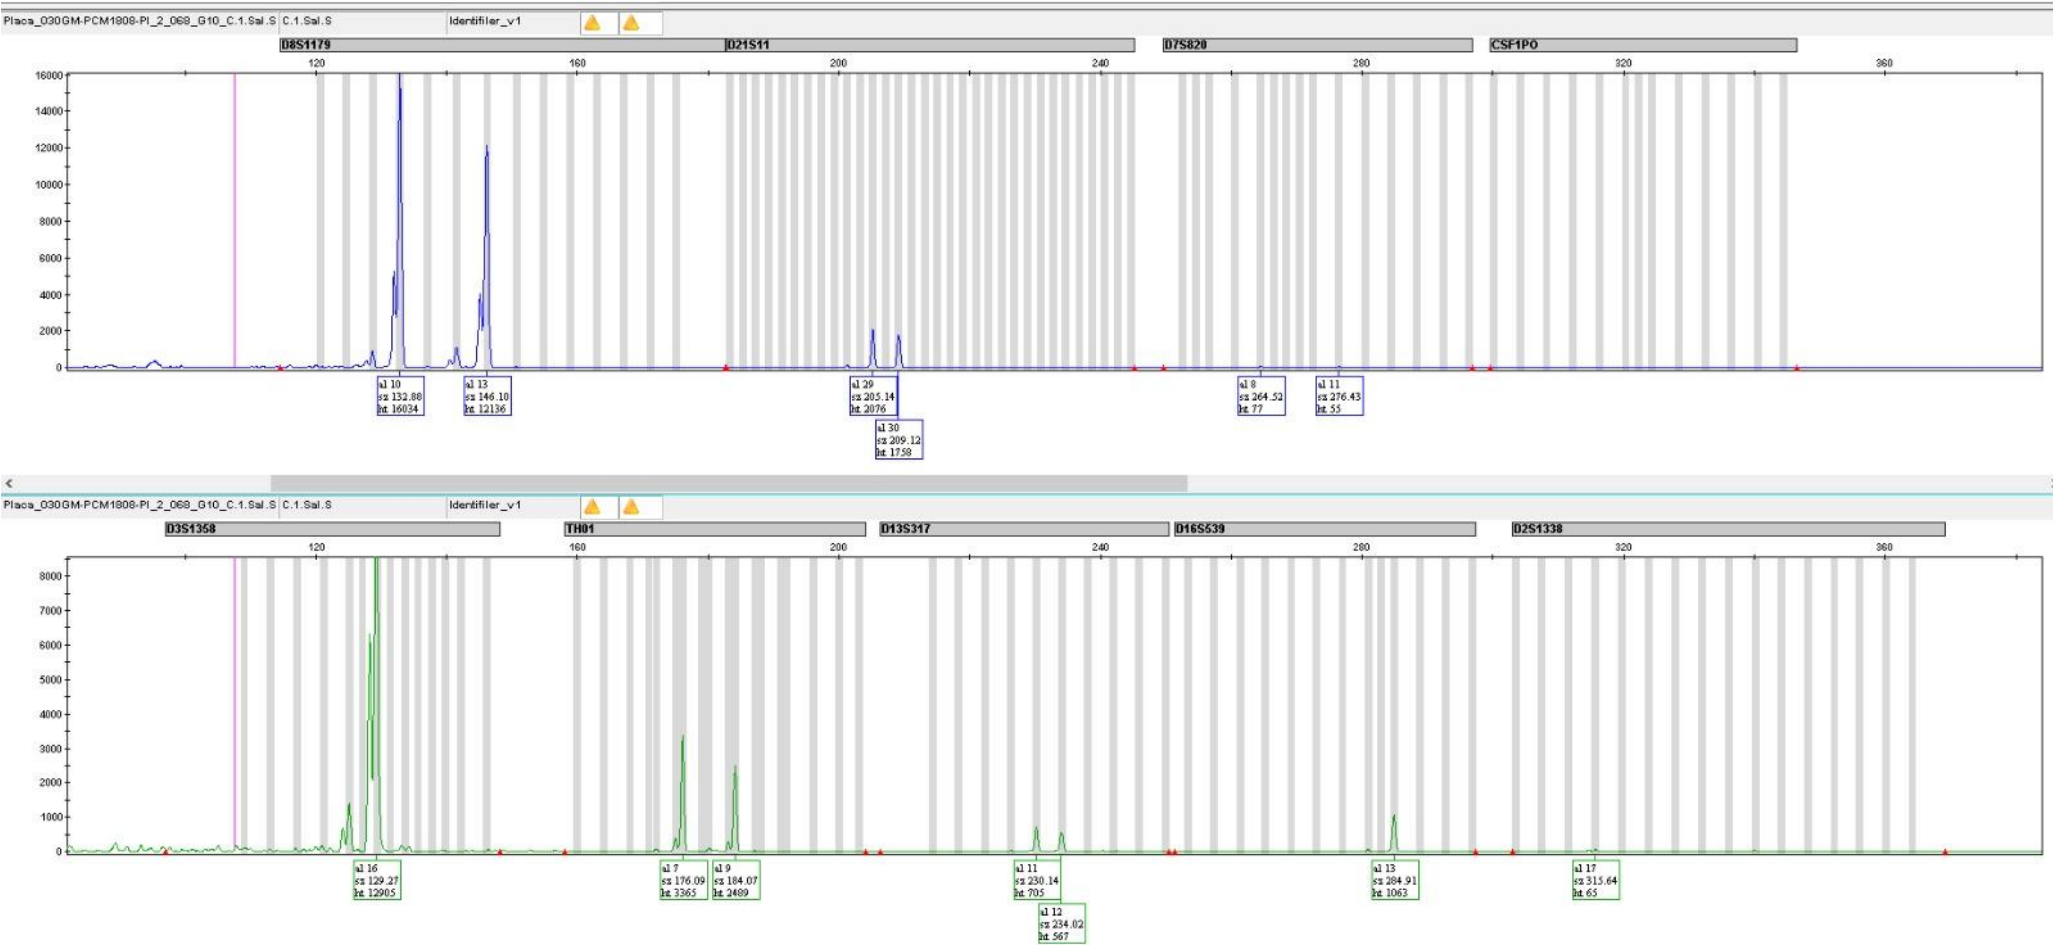

Figure 8. Example genetic profile for C₁SALS, where there is a loss of 4 alleles (continued).

Figure 9. Example genetic profile for C₁SGE, where there is a loss of 30 alleles.

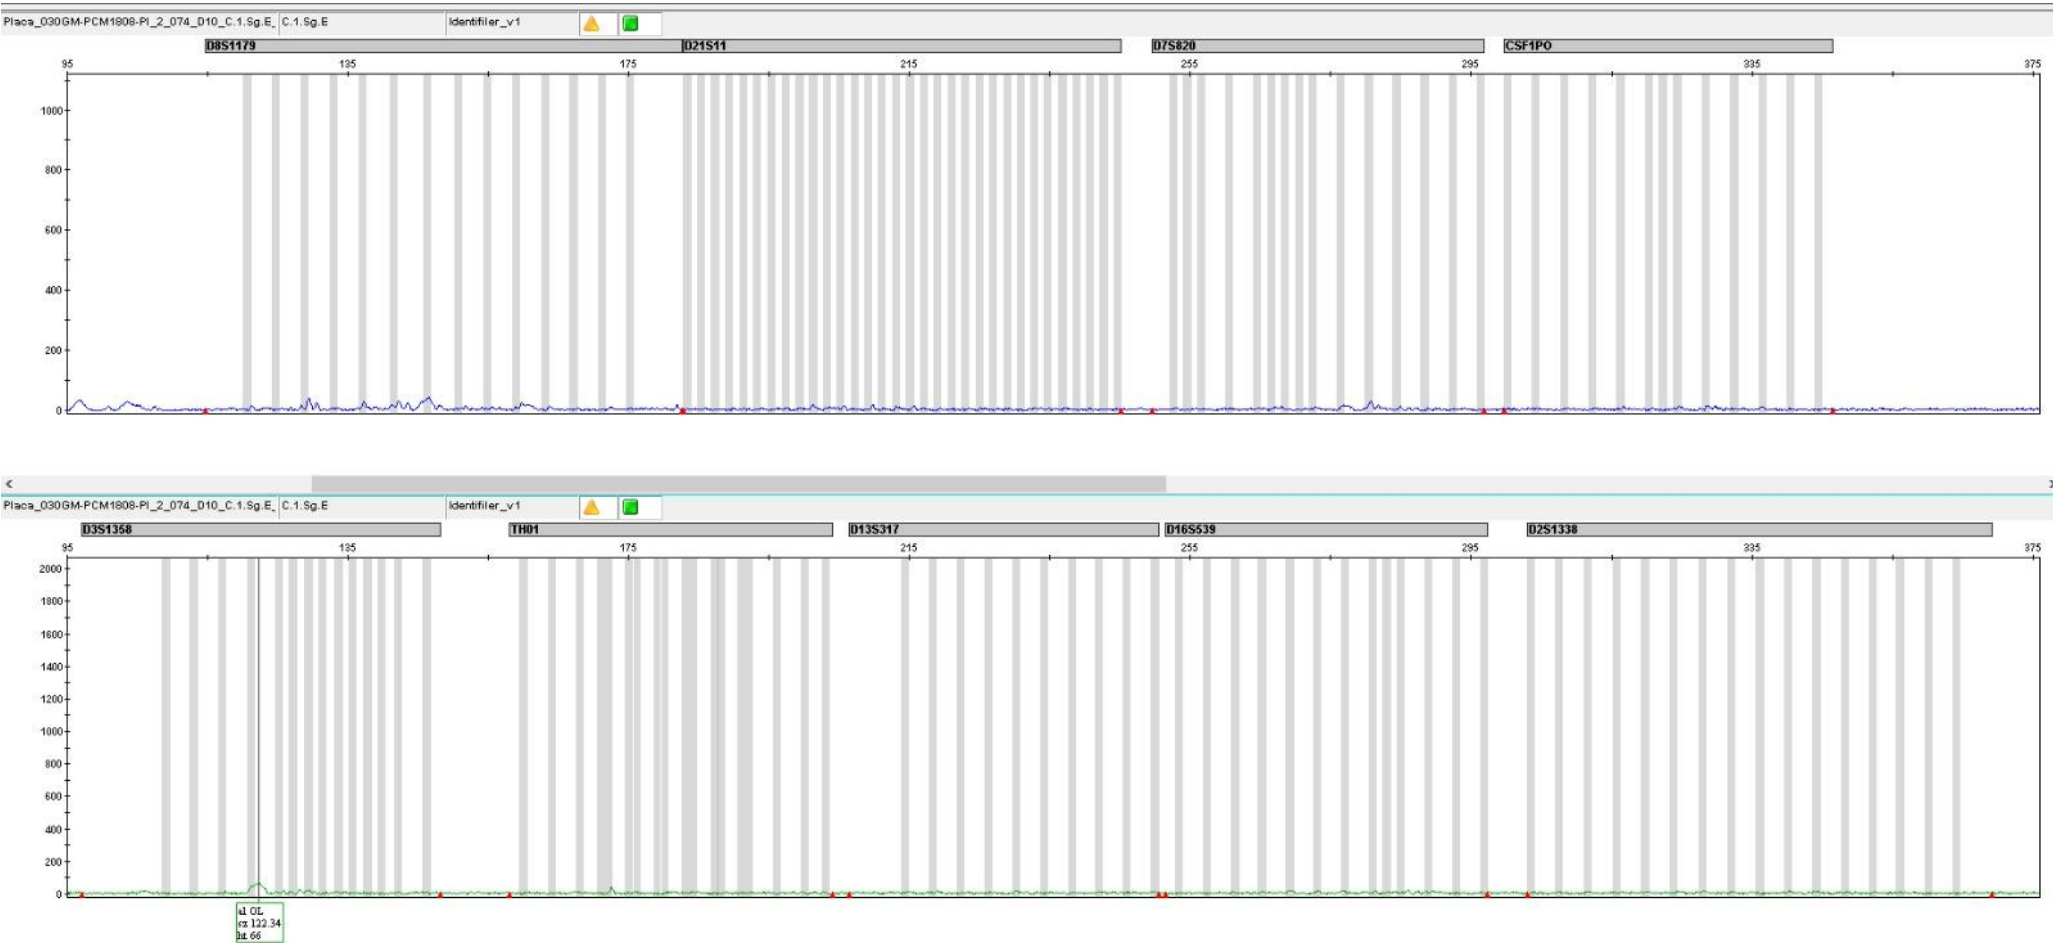

Figure 9. Example genetic profile for C₁SGE, where there is a loss of 30 alleles (continued)
