

STROBE Checklist for the manuscript “**Comparison of LISA and INSURE techniques for surfactant administration: a multicentre retrospective study**”

	Item No	Location in manuscript
Title and abstract	1	(a) Title (p. 1) (b) Abstract (p. 1-2)
Introduction		
Background/rationale	2	Introduction (p. 4-5)
Objectives	3	Introduction (p. 5)
Methods		
Study design	4	Materials and Methods – Study design (p. 5)
Setting	5	Materials and Methods – Setting (p. 5)
Participants	6	Materials and Methods – Participants (p. 5)
Variables	7	Materials and Methods – Variables (p. 5-6)
Data sources/ measurement	8	Materials and Methods – Data sources (p. 5)
Bias	9	Materials and Methods – Bias (p. 7); Discussion (p. 13-15)
Study size	10	Materials and Methods – Study size (p. 5)
Quantitative variables	11	Materials and Methods – Statistical analysis (p. 7); continuous variables were analysed as mean $\pm$ SD or median (IQR) according to distribution.
Statistical methods	12	Materials and Methods – Statistical analysis (p. 7)
Results		
Participants	13	Results - Enrolment and demographics (p. 7-9); Figure 1 (p. 8)
Descriptive data	14	Results – Enrolment and demographics (p. 7-9); Table 1 (p. 9-10)
Outcome data	15	Results – Tables 2-4 (p. 11-13)
Main results	16	Results – Main outcome and Secondary outcomes (p. 11-13)
Other analyses	17	Results (p. 8-13)
Discussion		
Key results	18	Discussion (p. 13-15); Future Research and Conclusions (p. 15)
Limitations	19	Discussion (p. 13-15)
Interpretation	20	Discussion (p. 13-15)
Generalisability	21	Discussion (p. 13-15); Future Research and Conclusions (p. 15)
Other information		
Funding	22	Statements and Declarations - Funding (p. 19)
