Subject: RE: reproduction of figures

Dear Dr. Kahan,

Thanks for your prompt reply. However, I'm in need of one more photo also published in Journal Medical Entomology, concerning the neosome of *Tunga monositus*:
Lavoipierre et al. 1979: The feeding process of a tungid flea.... Vol. 15, no.3, page 189, fig.3.
May I have permission to reuse it?

Sincerely,
Prof. Pedro M. Linardi

Dear Prof. Linardi,

The Entomological Society of America grants you permission to reuse the figures cited below as part of a review article you are writing for another journal.

De Avelar, Daniel M.; Linhares, Arício X.; Linardi, Pedro M. 2012. A New Species of *Tunga* (Siphonaptera: Tungidae) From Brazil With a Key to the Adult Species and Neosomes. [Journal of Medical Entomology](#), 49(1): 23-28, Figure 1

De Avelar, Daniel M.; Facury Filho, Elias J.; Linardi, Pedro M. 2013. A New Species of *Tunga* (Siphonaptera: Tungidae) Parasitizing Cattle From Brazil. [Journal of Medical Entomology](#), 50(4): 679-684, Figure 1.

Sincerely,
Alan Kahan

Dear Dr.

Justine,

I'm completing a review article about neosomes of *Tunga* (Siphonaptera) which should be submitted for publication in another journal. To do so, I need your permission for reproduction of some figures of species described and that has been included in the Parasite, respectively: Beaucournu et al. 2012: Description de *Tunga bonneti* n. sp.... Figs 2, 4 and 5, page 212, vol.19. I also would like to reuse the figs 3A and 3B, pag. 13, vol. 10, 2003, concerning *T. penetrans* and published by Pampiglione et al.

I inform you that I am writing along with Dr. Beaucournu and others the second part of the article "Le genre *Tunga*" that will be submitted in due course to the Parasite for publication.

Sincerely,

Prof. Pedro M. Linardi
