

Supplementary Table S1 Effect of continuous variables on prevalence of strongyle egg shedding in bivariate logistic regression models

Variable	Estimate ^c	SE ^a	OR ^b (95% CI)	p value
Number of horses	-0.0011	0.0003	0.9989 (0.9982-0.9996)	0.0017
Number of foals	0.0021	0.0015	1.0021 (0.9992-1.0050)	0.152
Shipping time	-0.0100	0.0098	0.9900 (0.9712-1.0092)	0.306

^aSE, standard error

^bOdds ratio with 95% confidence interval

^cResult of t test for differences in estimates
