Supplementary file description:

Full gas chromatography-mass spectrometry profile of the *Coriandrum sativum* essential oil batch 394-M05-CorEO-2022 used in the preclinical and clinical phases, including identified compounds and their relative abundances.

Supplementary Table S1. Full GC–MS profile of the *Coriandrum sativum* essential oil batch used in the preclinical and clinical phases.

No.	Compound	Content (%)
1	α -Pinene	8.34
2	Camphene	1.33
3	β -Thujene	0.40
4	Sabinene	0.35
5	β -Myrcene	0.86
6	Limonene	2.93
7	γ -Terpinene	9.73
8	p-Cymene	0.44
9	Isoterpinolene	0.60
10	Camphor	4.68
11	Linalool	67.47
12	α -Terpineol	0.29
13	Geranyl acetate	1.74
14	Geraniol	0.83

Sample:394-M05-CorEO-2022 Method:GC-MS
