

Date (dd/mm/yy): ____/____/____

Code#: _____ (leave this blank)

ENGLISH

Gender: Female Male Other: _____

Town/city of residence: _____

Country: _____

Where are you hosted? (answer only if you do not live here): Port de la Selva Roses Cadaqués

How often do you visit this area? (select one box only)

- ☐ I live here all year round → Since what decade?: _____ or Since birth
- ☐ Once every year → What was the decade of your first visit? _____
- ☐ Frequently → What was the decade of your first visit? _____
- ☐ Infrequently → What was the decade of your first visit? _____
- ☐ This is my first time

From what you know, indicate the following impacts/threats in order of importance according to its effect to the coastal marine life in this area. Consider current impacts, and future threats (in 30 years, by 2050). Number them from 1 to 8, where (1) is the one with most impact and (8) the one with least impact. If you think that a particular impact/threat does not or will not affect the coastal marine life in this area mark it with a (X).

	<u>Impacts (nowadays)</u>	<u>Threats (in 30 years)</u>
Climate change	()	()
Overfishing	()	()
Invasive marine species	()	()
Habitat degradation due to boat transit and anchoring	()	()
Inland pollution that ends up in the sea	()	()
Coastal construction and modification	()	()
Mass tourism	()	()
People’s irresponsible behaviour/lack of respect towards nature	()	()

Coastal marine life provides different benefits to society. Which benefits do you value the most? Prioritize them from 1 to 6 where (1) = most valued, and (6) = least valued. If you think that a particular value is not a real benefit mark it with a (X).

- () Food provision: fishing & aquaculture
- () Coastal protection: the coast line protects against inundation and coastal erosion from waves and storms
- () Climate regulation: sequestration and storage of carbon dioxide (CO₂) and other greenhouse gases
- () Protect and preserve biodiversity: seagrass beds, coral reefs and other habitats that provide an environment that facilitates the health and reproduction of other species that live in it.
- () Aesthetic value: Pleasure or positive feelings and/or emotions caused from enjoying the coastal and marine landscapes, habitats or species.
- () Recreation and tourism: marine and/or beach sports and activities like sunbathing, swimming, scuba diving, snorkelling, sailing, recreational fishing...

To what extent do you think you depend on the marine environment in your daily life, either for your work and/or income or for your leisure activities? (select one box only)

For example, you might be strongly dependent if your work is highly based on the sea, like fishermen, whale watching, lifeguard... or your hobby, like surfing, swimming, diving... or simply the need of going to visit the coastline.

- ☐ Strongly. I need it frequently
- ☐ I need it once in a while, I cannot spend too much time without it
- ☐ I enjoy it, but I do not depend on it
- ☐ Indifferent. It has nothing to do with me
- ☐ I avoid it

Age group: (select one box only)

- ☐ 18 – 29
- ☐ 30 – 39
- ☐ 40 – 49
- ☐ 50 – 59
- ☐ 60 – 69
- ☐ 70 – 79
- ☐ 80 – 89
- ☐ ≥ 90

What is the highest level of education that you have completed?: (select one box only)

- ☐ No schooling completed
- ☐ Primary school
- ☐ Middle school
- ☐ High school
- ☐ Professional degree/technical school training
- ☐ University
- ☐ Master, post-graduate
- ☐ Doctorate/PhD

What is your profession? _____

Choose one of the following that best indicate your average yearly income. If you are retired think in your income when you were working:

(select only one box and the one in your currency)

- | Euros (€) | Dollars (\$) | Pound sterling (£) |
|---|---|---|
| ☐ No income/unemployed | ☐ No income/unemployed | ☐ No income/unemployed |
| ☐ < 14,000 € | ☐ < 15,000 \$ | ☐ < 12,000 £ |
| ☐ 14,000 – 35,000 € | ☐ 15,000 – 40,000 \$ | ☐ 12,000 – 30,000 £ |
| ☐ 35,000 – 56,000 € | ☐ 40,000 – 60,000 \$ | ☐ 30,000 – 50,000 £ |
| ☐ > 56,000 € | ☐ > 60,000 \$ | ☐ > 50,000 £ |
