

Mapping vaccination mindsets among UK residents of Black ethnicities with HIV: lessons from COVID-19, AIDS & Behaviour, Moon, Z., Campbell L., Ottaway, Z., Fox, J., Burns, F., Hamzah L., Ustianowski, A., Clarke, A., Schoeman, S., Sally, D., Tariq, S., Post, F.A., Horne, R. Corresponding author: Prof Rob Horne, University College London, r.horne@ucl.ac.uk

Online Resource 3. Questions used to evaluate conspiracy beliefs, misunderstandings/misconceptions, and racial inequality beliefs

	Conspiracy Beliefs
C1	The coronavirus pandemic is part of a wider conspiracy to deploy 5G network towers and to microchip people
C2	The coronavirus pandemic is not as bad as the government makes it out to be
C3	Bill Gates is responsible for the COVID-19 pandemic
C4	Wearing masks does nothing to stop the spread of COVID-19
C5	The coronavirus is man-made and possibly the work of a government lab, the CIA, or the Chinese Government
C6	The prolonged use of face masks is harmful to people's health
C7	When it comes to COVID-19, black people cannot trust the healthcare system
C8	Black people should not trust information from the government about COVID-19
C9	There is a cure for COVID-19 that is being withheld from black people
	Misconceptions
M1	COVID-19 only affects older people and is not a problem for younger people
M2	Cold weather and snow can kill coronavirus
M3	My faith in God is enough to protect me from COVID-19
M4	Being exposed to the sun or temperatures higher than 25 degrees will prevent COVID-19
M5	Vaccines against pneumonia will protect you from COVID-19
	Racial Inequality beliefs
R1	When it comes to COVID-19, Black people receive the same quality of healthcare as other groups*
R2	There is NO racial bias in healthcare for COVID-19*
