

Supplement 4 – Exploratory Factor Analyses Parenting

Child-Reported Parenting

Table 1S4. *Factor analysis child-reported parenting mother, cohort 05.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	CR negative communication mother	.859	-.153
	CR psychological control mother	.794	
	CR inconsistent parenting mother	.632	.130
2. Positive Parenting	CR monitoring mother		.899
	CR warmth mother		.890

Factor loadings > .10 (Promax), CR, child report; **bold**, highest loadings.

Table 2S4. *Explained variance child-reported parenting mother, cohort 05.*

component	eigenvalue	% of variance	cumulative %
1	1.927	38.546	38.546
2	1.494	29.889	68.435
3	0.754	15.072	83.507
4	0.466	9.323	92.830
5	0.358	7.170	100

Table 3S4. *Factor analysis child-reported parenting father, cohort 05.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	CR negative communication father	.856	
	CR psychological control father	.852	
	CR inconsistent parenting father	.617	.190
2. Positive Parenting	CR monitoring father		.867
	CR warmth father		.760

Factor loadings > .10 (Promax), CR, child report; **bold**, highest loadings.

Table 4S4. *Explained variance child-reported parenting father, cohort 05.*

component	eigenvalue	% of variance	cumulative %
1	2.058	41.158	41.158
2	1.169	23.376	64.534
3	0.813	16.264	80.797
4	0.554	11.080	91.877
5	0.406	8.123	100

Table 5S4. *Factor analysis child-reported parenting mother, cohort 11 & 17.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	CR psychological control mother	.787	.290
	CR negative communication mother	.786	-.175
	CR inconsistent parenting mother	.650	
2. Positive Parenting	CR monitoring mother	.196	.853
	CR warmth mother	-.276	.733

Factor loadings > .10 (Promax), CR, child report; **bold**, highest loadings.

Table 6S4. *Explained variance child-reported parenting mother, cohort 11 & 17.*

component	eigenvalue	% of variance	cumulative %
1	1.918	38.351	38.351
2	1.246	24.920	63.271
3	0.734	14.678	77.949
4	0.661	13.223	91.171
5	0.441	8.829	100

Table 7S4. *Factor analysis child-reported parenting father, cohort 11 & 17.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	CR negative communication father	.853	-.189
	CR psychological control father	.807	.182
	CR inconsistent parenting father	.592	
2. Positive Parenting	CR warmth father		.858
	CR monitoring father	.111	.833

Factor loadings > .10 (Promax), CR, child report; **bold**, highest loadings.

Table 8S4. *Explained variance child-reported parenting father, cohort 11 & 17.*

component	eigenvalue	% of variance	cumulative %
1	1.750	35.007	35.007
2	1.498	29.957	64.964
3	0.824	16.484	81.448
4	0.565	11.307	92.755
5	0.362	7.245	100

Parent-Reported Parenting

Table 9S4. *Factor analysis parent-reported parenting mother, cohorts 05, 11 & 17.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	PR negative communication mother	.793	-.130
	PR psychological control mother	.778	.198
	PR inconsistent parenting mother	.663	
2. Positive Parenting	PR warmth mother		.869
	PR monitoring mother		.846

Factor loadings > .10 (Promax), PR, parent report; **bold**, highest loadings.

Table 10S4. *Explained variance parent-reported parenting mother, cohorts 05, 11 & 17.*

component	eigenvalue	% of variance	cumulative %
1	1.742	34.834	34.834
2	1.465	29.302	64.136
3	0.758	15.168	79.305
4	0.576	11.527	90.831
5	0.458	9.169	100

Table 11S4. *Factor analysis parent-reported parenting father, cohorts 05, 11 & 17.*

Factor name	Scale	Factor loadings	
		1	2
1. Negative Parenting	PR negative communication father	.821	-.118
	PR psychological control father	.785	.223
	PR inconsistent parenting father	.606	-.129
2. Positive Parenting	PR warmth father		.845
	PR monitoring father		.824

Factor loadings > .10 (Promax), PR, parent report; **bold**, highest loadings.

Table 12S4. *Explained variance parent-reported parenting father, cohorts 05, 11 & 17.*

component	eigenvalue	% of variance	cumulative %
1	1.694	33.876	33.876
2	1.438	28.765	62.641
3	0.804	16.071	78.712
4	0.615	12.307	91.019
5	0.449	8.981	100
