

## 关于免除“知情同意书”的申请

尊敬的伦理委员会：

我院检验科拟开展关于“双阴性 T 细胞联合 IL-15 在乳腺癌免疫治疗中的作用及机制研究”的课题。

研究项目简介

本研究预计收集乳腺癌患者和健康体检者的血液标本用于“双阴性 T 细胞联合 IL-15 在乳腺癌免疫治疗中的作用及机制研究”。这些离体血液标本来源于检验科剩余血样，该取样操作与常规检查时标本取样类似，不会影响患者的诊断。本研究对患者的健康状况无任何影响，也不会额外增加患者的经济负担。从本研究得到的信息可能有益于患有相似疾病的其他患者。研究有可能为患者以后的治疗、随访及预后提供有帮助的信息。研究者保证对患者的个人医疗资料和疾病信息、生命信息、基因信息的隐私保密。

特申请免除签署“知情同意书”。

## Application for Waiver of Informed Consent

Dear Ethics Committee,

We would like to apply for waivers of informed consent for our proposed research project titled " The function and mechanism of double negative T cells in conjunction with IL-15 for breast cancer immunotherapy ".

This study aims to collect blood samples from breast cancer patients and healthy individuals undergoing physical examinations for the research on " The function and mechanism of double negative T cells in conjunction with IL-15 for breast cancer immunotherapy ". These ex vivo blood samples are sourced from residual blood samples in the clinical laboratory, obtained in a similar manner to routine sample collection procedures, which will not affect the patients' diagnosis. This research has no impact on the health status of the patients and will not impose any additional financial burden on them. The information obtained from this study may be beneficial for other patients with similar diseases. The research has the potential to provide helpful information for the treatment, follow-up, and prognosis of patients in the future. The researchers guarantee the confidentiality of the patients' personal medical records, disease information, vital information, and genetic information.

We would like to apply for waivers of Informed Consent.
