Supplementary Figures Captions

Online Resource 1 Reasons for readmission

Online Resource 2 Analysis of 90-day readmission by age of patient, surgical time, ICU stay, and length of stay

Online Resource 3 Readmissions Among Patients 0 to <5 Years Categorized by (A) Relation to Craniotomy and (B) Top Five POEs

Online Resource 1

Reasons for Readmission					
Due to POE from craniotomy	Total	Not due to POE from craniotomy	Total	Unplanned return to OR	Total
	131		77		94
Surgical POE	123	Planned second procedure	46	<i>Not due to POE</i>	4
Medical POE	4	Seizure	6	Shunt placement/revision for HCP	3
Surgical + Medical POE	4	Fever/nausea/vomiting	7	Emergent tumor resection	1
		Obstructive HCP from tumor growth	5	<i>Due to POE</i>	90
		Shunt malfunction	3	Shunt revision/replacement for HCP	39
		Head trauma	3	Wound revision	28
		Psychiatric issues	2	CSF repair leak	21
		Shunt infection	1	Sinus repair	1
		Pseudomeningocele not due to POE	1	Hickman catheter placement	1
