### Table of Content

|                                                                                             |   |
|---------------------------------------------------------------------------------------------|---|
| 1. Nitrogen adsorption isotherms and BJH plots of the PTA/SiO <sub>2</sub> composites ..... | 2 |
| 2. Characterization of the catalysts by XRPD and NMR .....                                  | 5 |
| 3. NMR spectra and GC chromatograms of the alkylation product .....                         | 6 |

## 1. Nitrogen adsorption isotherms and BJH plots of the PTA/SiO<sub>2</sub> composites

**Fig. S1** Nitrogen adsorption isotherm and BJH plot of the 20% PTA/SiO<sub>2</sub>

**Fig. S2** Nitrogen adsorption isotherm and BJH plot of the 30% PTA/SiO<sub>2</sub>

**Fig. S3** Nitrogen adsorption isotherm and BJH plot of the 40% PTA/SiO<sub>2</sub>

**Fig. S4** Nitrogen adsorption isotherm and BJH plot of the 50% PTA/SiO<sub>2</sub>

**Fig. S5** Nitrogen adsorption isotherm and BJH plot of the 60% PTA/SiO<sub>2</sub>

**Fig. S6** Nitrogen adsorption isotherm and BJH plot of the 70% PTA/SiO<sub>2</sub>

## 2. Characterization of the catalysts by XRPD and NMR

**Fig. S7** XRPD patterns of PTA/SiO<sub>2</sub> catalysts

**Fig. S8** <sup>1</sup>H MAS NMR spectrum of the catalyst after its second use (depicted on in Diagram 8) in the flow process

### 3. NMR spectra and GC chromatograms of the alkylation product

**Fig S9**  $^1\text{H}$  NMR spectrum of the isomeric mixture of octyltoluenes

**Fig S10** HSQC spectrum of the isomeric mixture of octyltoluenes (selected region)

| # | Name | RT<br>[min] | Area<br>[pA*s] | % Area |
|---|------|-------------|----------------|--------|
| 1 |      | 3.652       | 177859         | 13.449 |
| 2 |      | 9.888       | 1107841        | 83.771 |
| 3 |      | 13.455      | 36762          | 2.780  |

**Fig. S11** GC chromatogram of the alkylation product containing starting material (elution order: toluene, isomers of octene, isomers of octyl toluene, isomers of dioctyl toluenes)
