

FIGURE LEGEND

Enzymes

Kinase

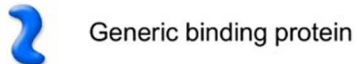

Protein kinase

Protease

Metalloprotease

Generic classes

Generic binding protein

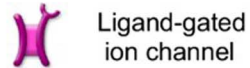

Receptor ligand

Compound

Channels/Transporters

Ligand-gated
ion channel

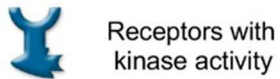

Receptors

Generic receptor

GPCR

Receptors with
kinase activity

Localization

Extracellular

Cytoplasm

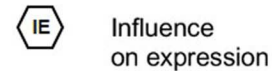

Nucleus

Mechanisms

Binding

Influence
on expression

Objects on maps

A complex or a group

Drug

Link Legend

Positive effect

Negative effect

Unspecified effect

Technical link

Gene Expression level
