

Full unedited gel for Fig. 2C

Protein ladder: Prestained Color Protein Marker (10-180kDa) (BL712A, biosharp)

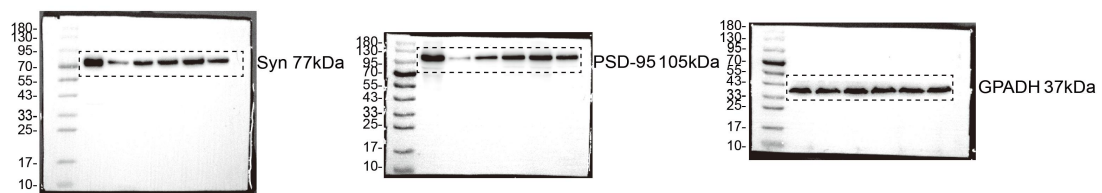

Sample loading order (left to right): Control group, Model group, ZGP-L group, ZGP-M group, ZGP-H group, Donepezil group

Full unedited gel for Fig. 3C

Protein ladder: Prestained Color Protein Marker (10-180kDa) (BL712A, biosharp)

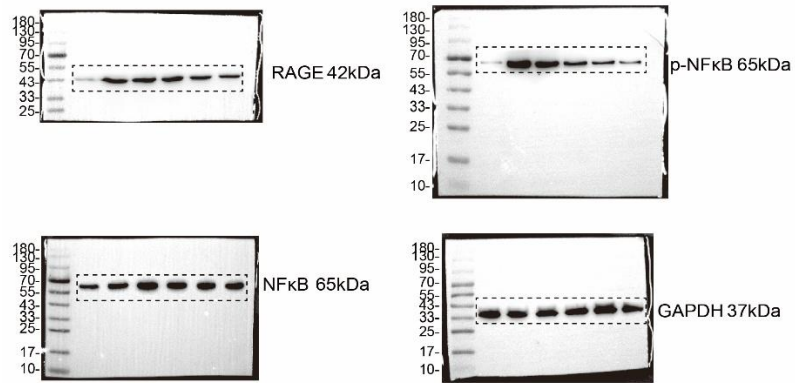

Sample loading order (left to right): Control group, Model group, ZGP-L group, ZGP-M group, ZGP-H group, Donepezil group

Full unedited gel for Fig. 4C

Protein ladder: Prestained Color Protein Marker (10-180kDa) (BL712A, biosharp)

Sample loading order (left to right): Control group, Model group, ZGP-L group, ZGP-M group, ZGP-H group, Donepezil group

Full unedited gel for experiment 1 (Fig. 5C).

Protein ladder: Prestained Color Protein Marker (10-180kDa) (BL712A, biosharp)

Sample loading order (left to right): Control group, Model group, ZGP-L group, ZGP-M group, ZGP-H group, Donepezil group
