

Appendix 1. Stage 1 interview guide

1. Baseline understanding of genomics

- a. What do you understand about genomics?
- b. How have you learnt about genomics?
- c. What are some experiences that stand out to you?
- d. Do you think you have sufficient understanding to use genomics in your (current) practice?
- e. Is there anything else you would like to add about what you understand about genomics?

2. Baseline practice of genomic medicine

- a. Next, I'd like to know about your genomics practice. Can you tell me how relevant genomics is to your everyday practice?
- b. How important do you think genomics is in medicine? Oncology?
- c. Do you come across much genomics in your workplace?
- d. Is there anything else you would like to add about genomics in your own practice?

3. Baseline understanding of workplace learning

- a. If there is something that you didn't know or couldn't do in your clinical practice, how would you go about resolving that gap?
- b. Is there anything else you would like to add about how you learn through your practice or in the workplace?

4. Wrap-up

- a. Is there anything else you would like to say that my questions haven't covered?
- b. Would you like to receive a reminder to submit your monthly entry?
