

Patient: Olena Kovalenko

Place of birth: Lviv, Ukraine

I, the undersigned **Olena Kovalenko**, confirm that I have been clearly informed that clinical images concerning me, including photographs of my face, oral cavity, lesions, scars, radiological examinations, intraoperative or postoperative images, may be used by the Authors for scientific, educational and/or editorial purposes.

I authorize the publication of these images in relation to:

Title of the article / case report:

Long-term survival of a maxillary subperiosteal implant after blast injury: a 17-year follow-up case report

Journal / Publisher:

Journal of Oral and Maxillofacial Surgery, Medicine and Pathology

I understand that these images may be published in printed and/or electronic format, in scientific journals, books, online platforms of the publisher, bibliographic databases and other scientific dissemination channels.

I have been informed that the Authors will take all reasonable measures to protect my privacy, avoiding the publication of my name, initials or other directly identifying data. However, I understand that in the case of images of the face, oral cavity or other specific clinical features, complete anonymity cannot be guaranteed.

I also understand that:

1. my consent is voluntary;
2. I may refuse consent without any negative consequences for my present or future medical care;
3. the images may be viewed by doctors, researchers, students, journal readers and the public, including internationally;
4. once published, the images may not be completely removable from all platforms, archives or databases;
5. I will not receive any financial compensation for the publication of the images;
6. this consent applies only to the scientific, educational and editorial use of the images and does not authorize unrelated commercial use.

I hereby **authorize the publication of my clinical images** as described above.
