

Genomic Landscape of Early-Stage Prostate Adenocarcinoma in Mexican patients: An exploratory study

Supplementary Material

Figure supplementary 1: Mutational Profile SBS

Supplementary Figure 1. Single Base Substitution (SBS) mutational profile. Bar graph depicting the SBS profile by each patient in a 96-base context.

Figure supplementary 2: Mutational Profile DBS

Supplementary Figure 2. Double Base Substitution (DBS) mutational profile. Bar graph depicting the DBS profile by each patient

Figure supplementary 3: Mutational Profile InDels

Supplementary Figure 3. Mutational profile of small insertions and deletions (ID). Bar graph depicting the ID profile by each patient
