

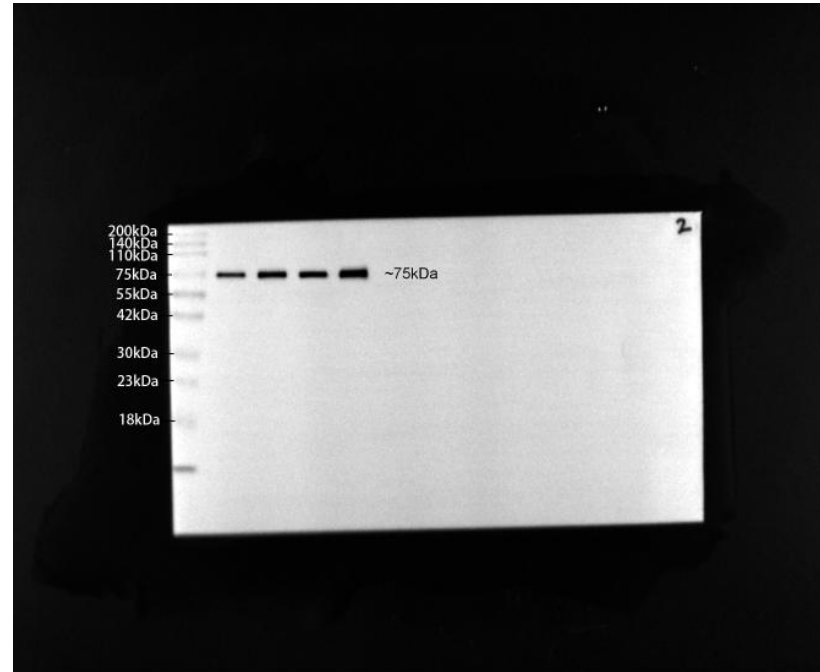

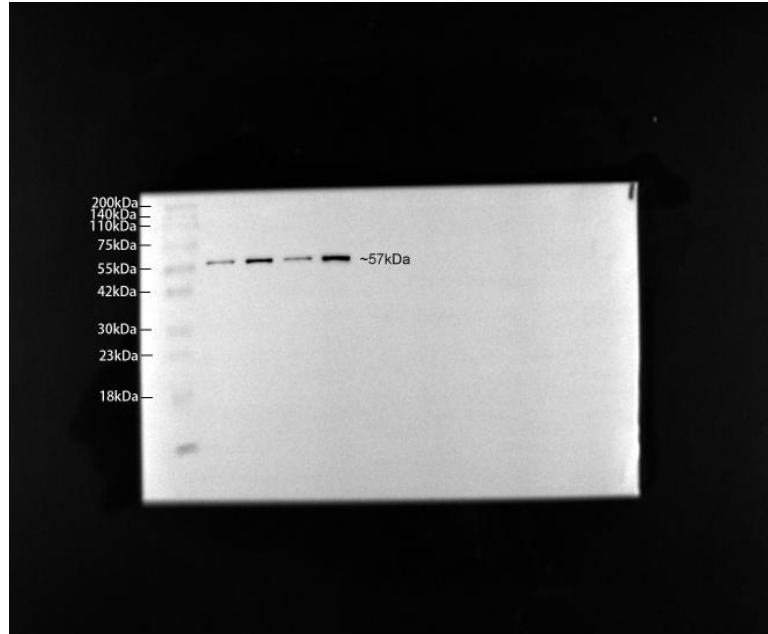

Figure 5A

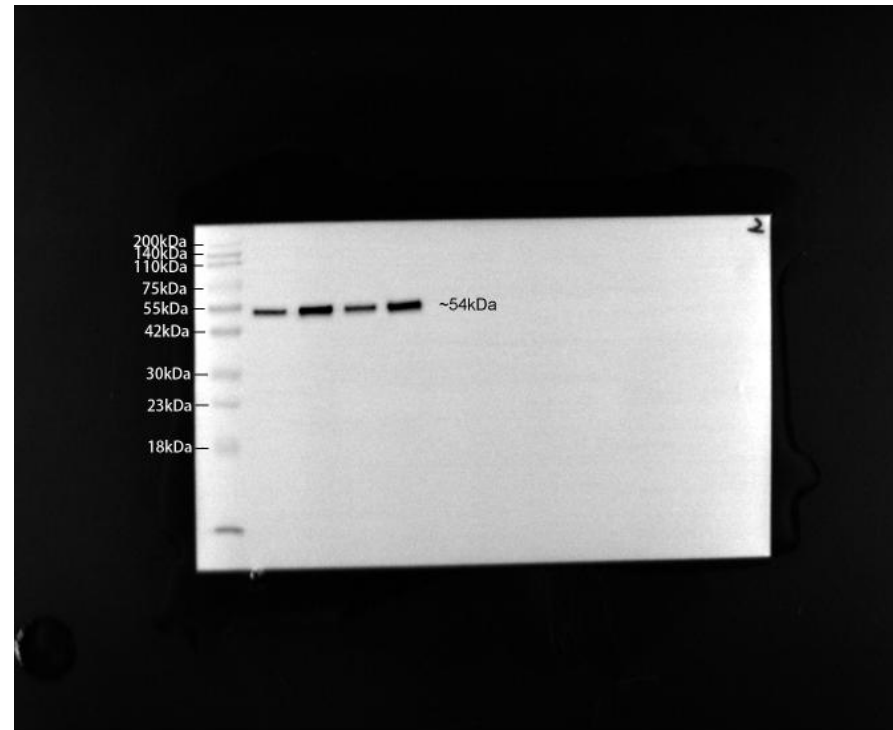

This is the original Western blots image of RIPK1 in Figure 5A.

Figure 5A

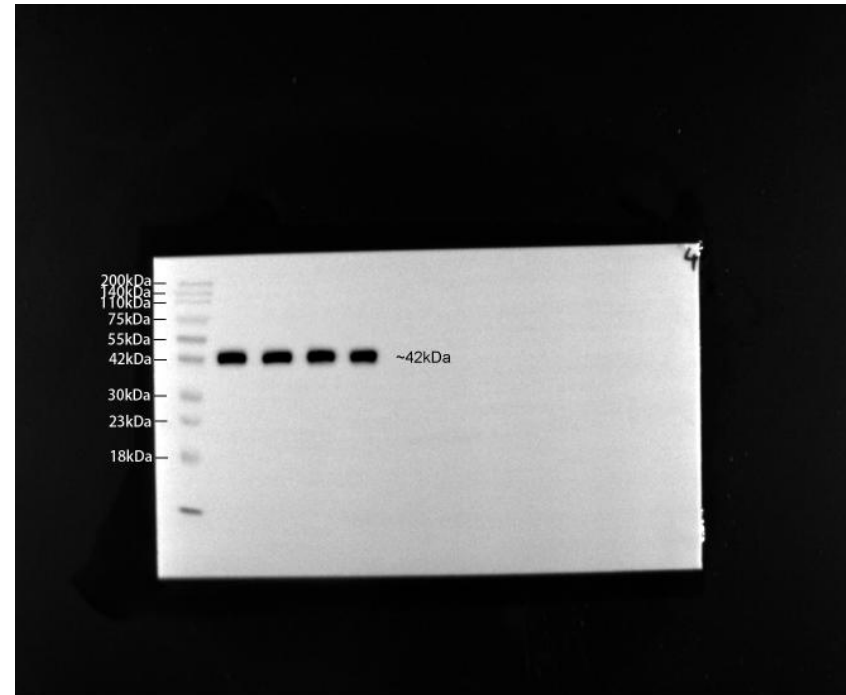

This is the original Western blots image of RIPK3 in Figure 5A.

Figure 5A

This is the original Western blots image of MLKL in Figure 5A.

Figure 5A

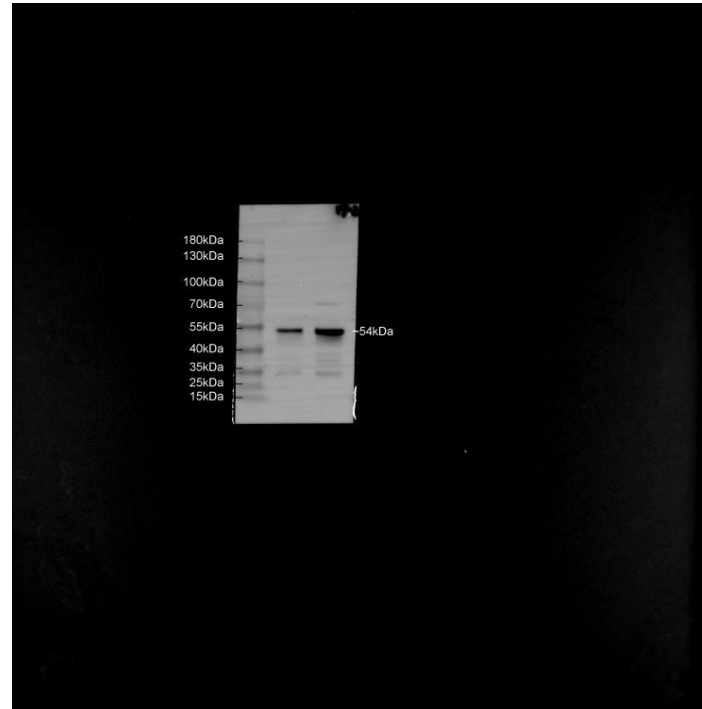

This is the original Western blots image of β -actin in Figure 5A.

Figure 5B

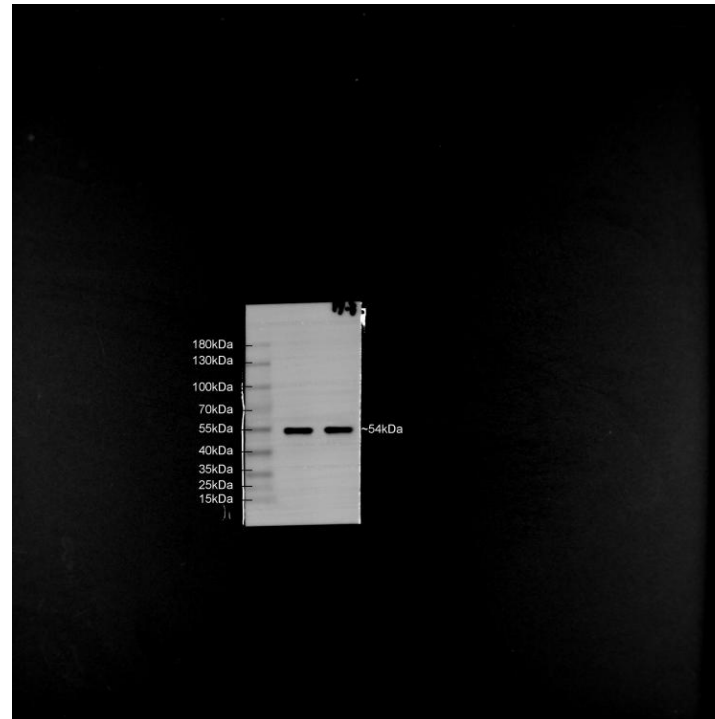

This is the original Western blots image of pMLKL(SK-HEP-1) in Figure 5B.

Figure 5B

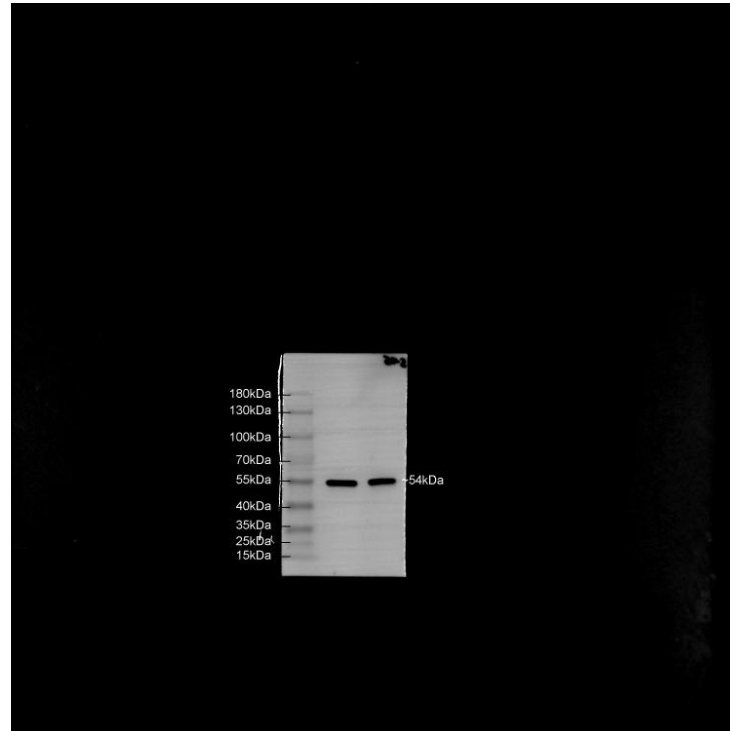

This is the original Western blots image of pMLKL(BEL-7402) in Figure 5B.

Figure 5B

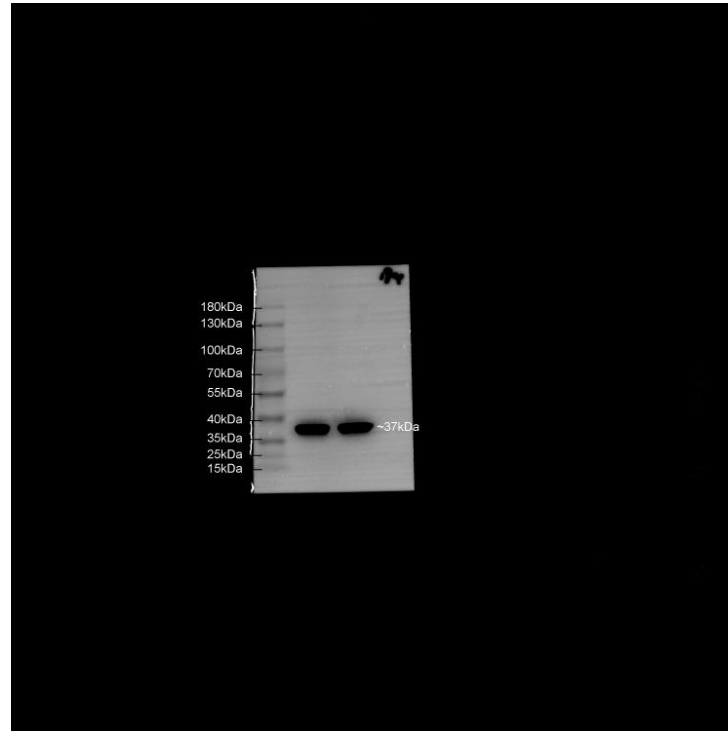

This is the original Western blots image of MLKL(SK-HEP-1) in Figure 5B.

Figure 5B

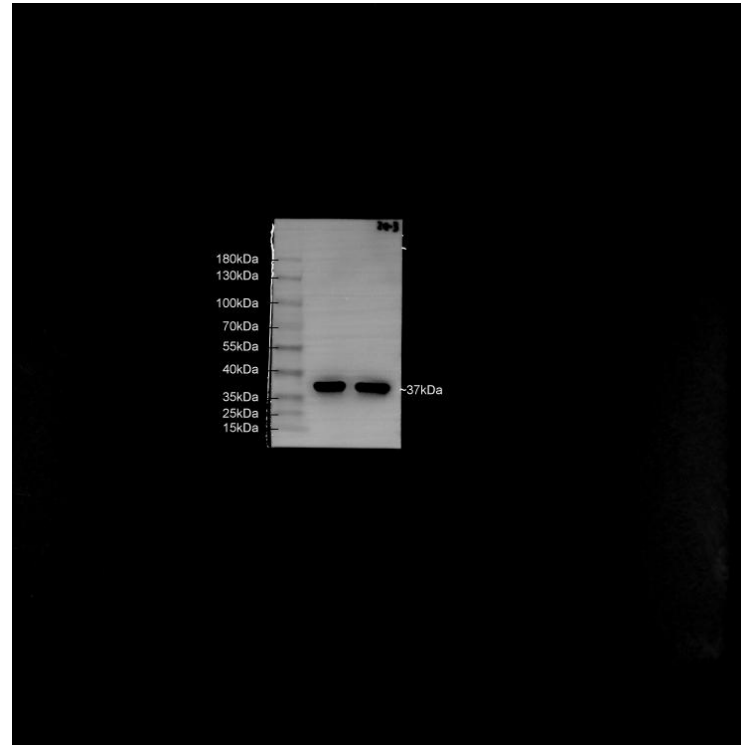

This is the original Western blots image of MLKL(BEL-7402) in Figure 5B.

Figure 5B

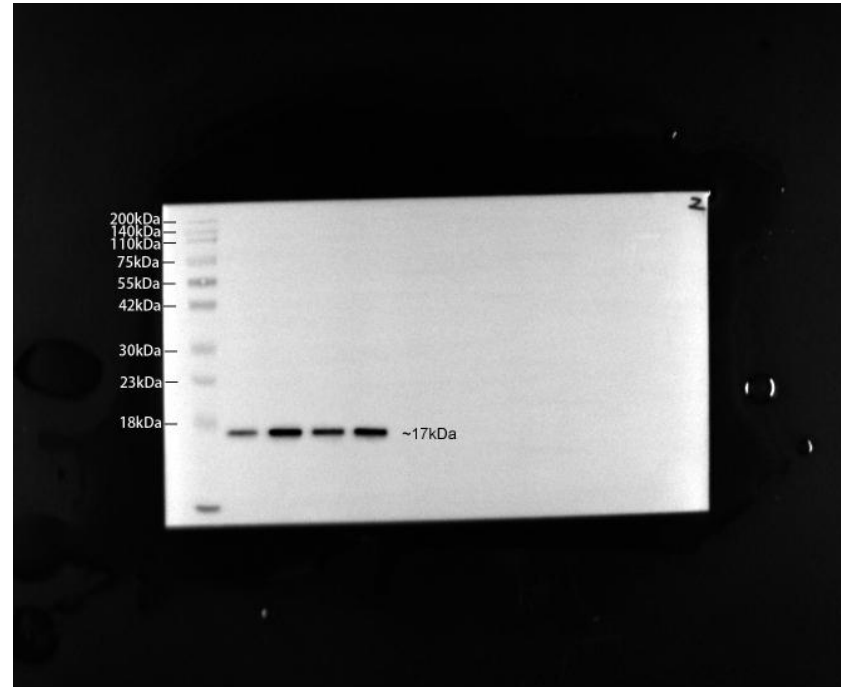

This is the original Western blots image of GAPDH(SK-HEP-1) in Figure 5B.

Figure 5B

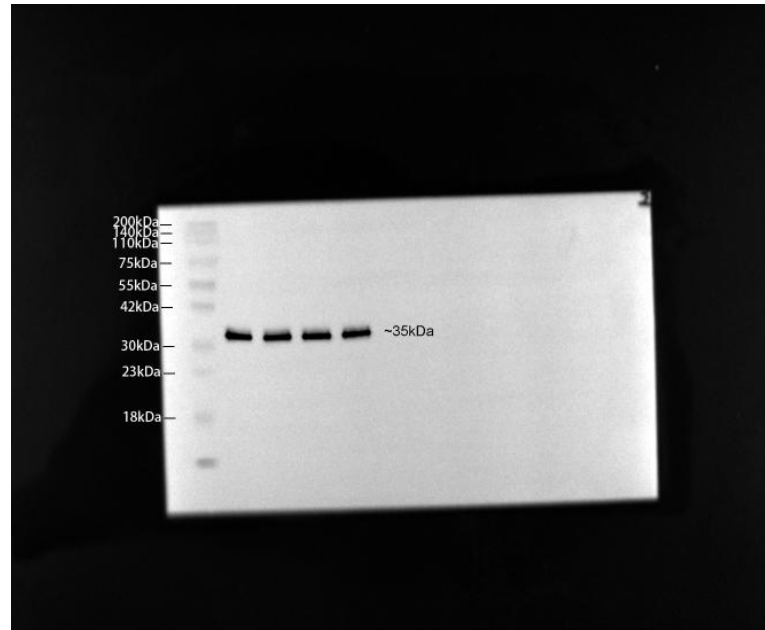

This is the original Western blots image of GAPDH(BEL-7402) in Figure 5B.

Figure 5C

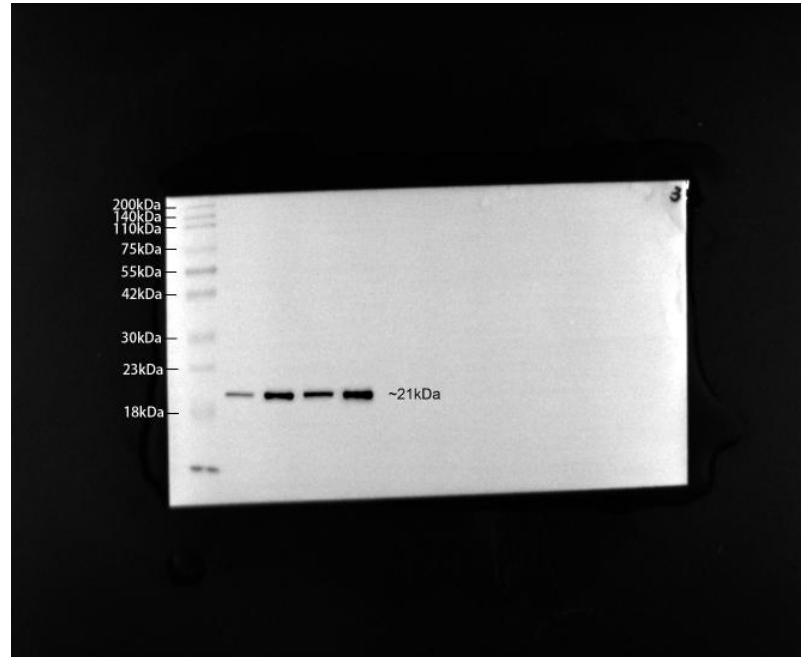

This is the original Western blots image of Cleaved Caspase 3 in Figure 5C.

Figure 5C

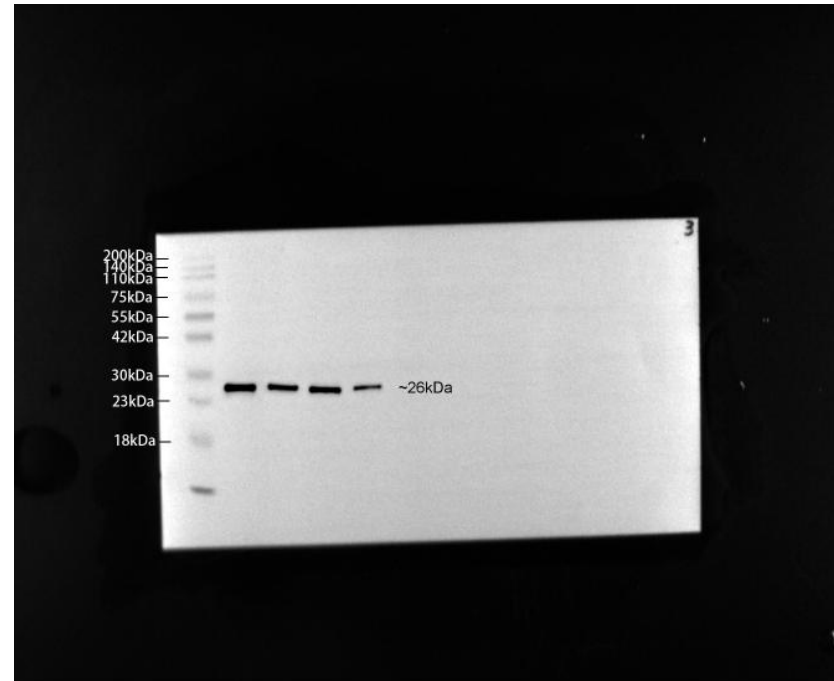

This is the original Western blots image of Caspase 3 in Figure 5C.

Figure 5C

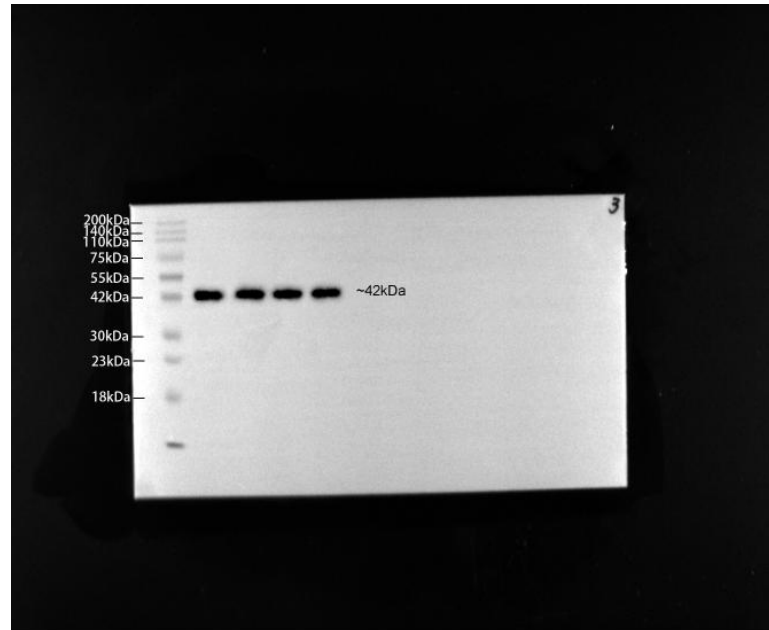

This is the original Western blots image of Bax in Figure 5C.

Figure 5C

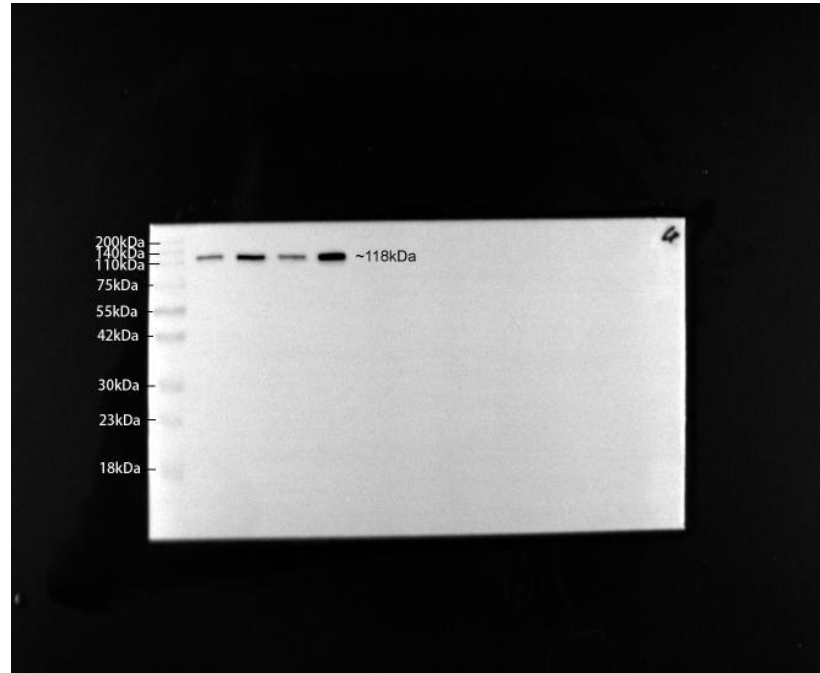

This is the original Western blots image of Bcl-2 in Figure 5C.

Figure 5C

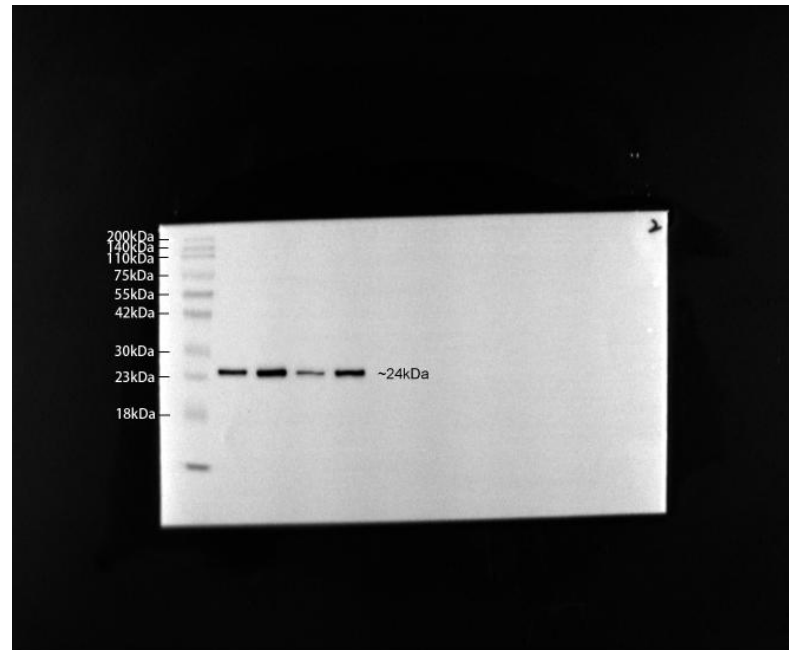

This is the original Western blots image of β -actin in Figure 5C.

Figure 5E

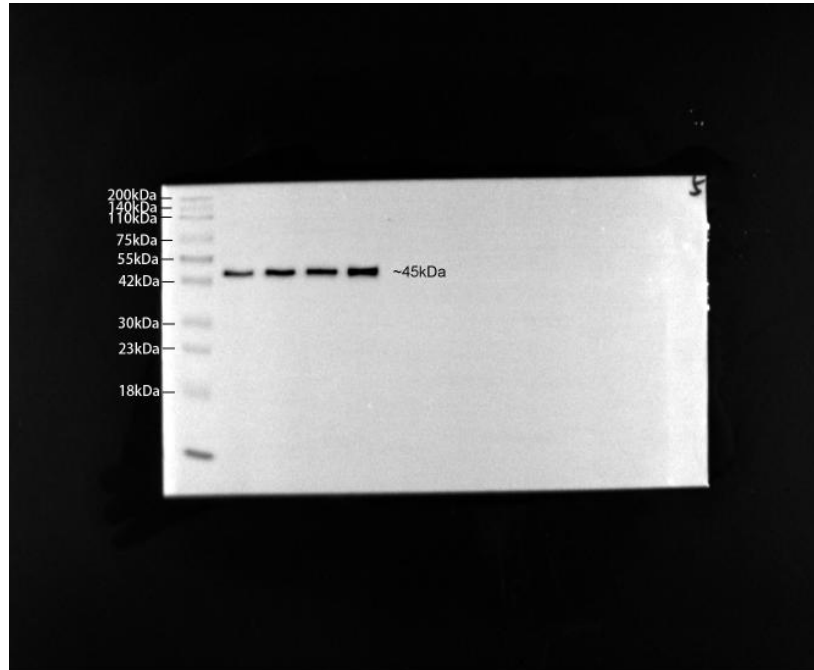

This is the original Western blots image of NLRP3 in Figure 5E.

Figure 5E

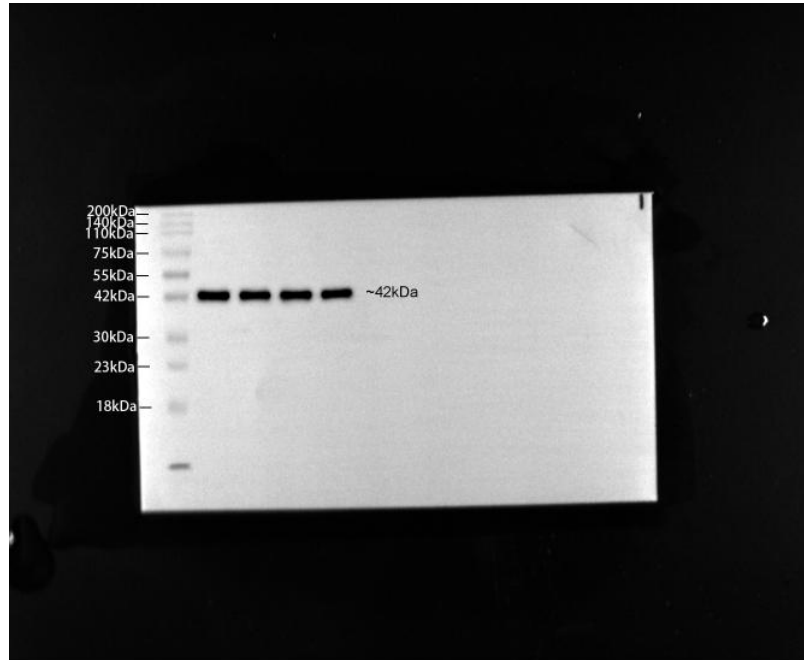

This is the original Western blots image of ASC in Figure 5E.

Figure 5E

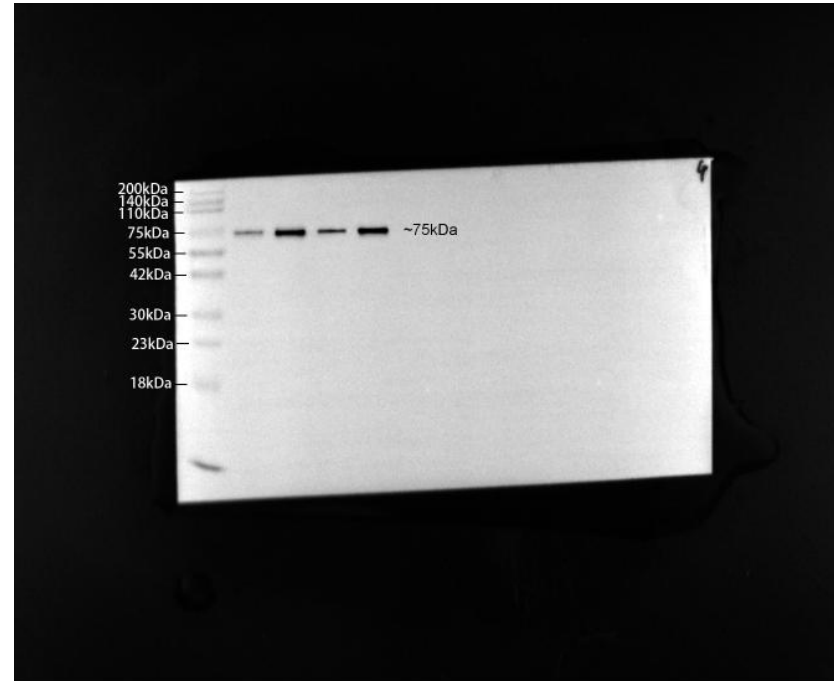

This is the original Western blots image of Caspase 1 in Figure 5E.

Figure 5E

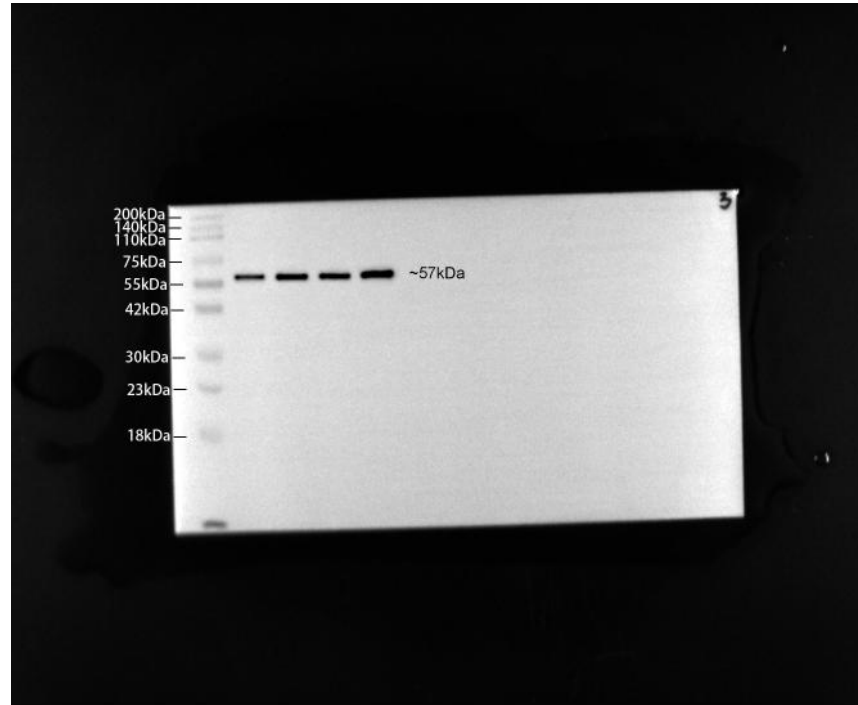

This is the original Western blots image of β -actin in Figure 5E.

Figure 6A

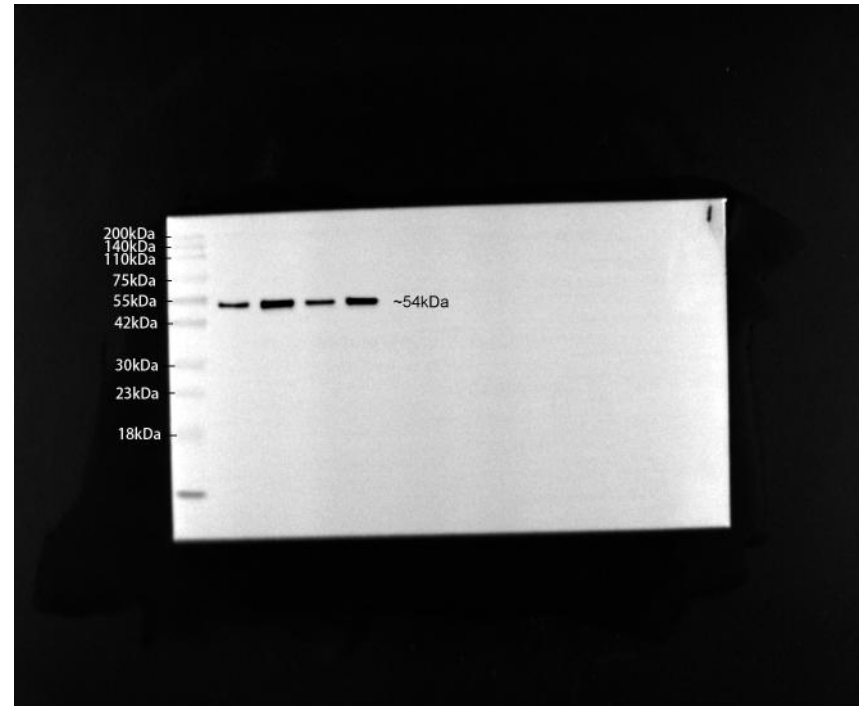

This is the original Western blots image of RIPK1 in Figure 6A.

Figure 6A

This is the original Western blots image of RIPK3 in Figure 6A.

Figure 6A

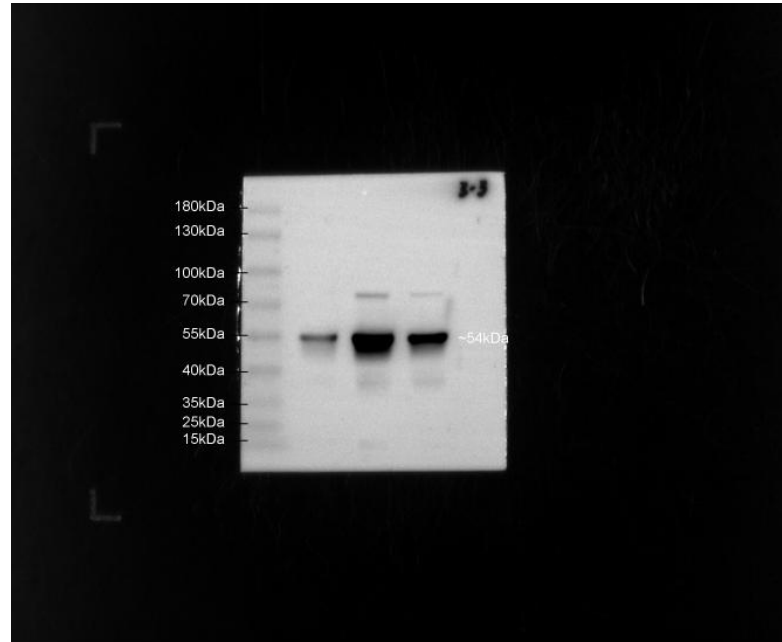

This is the original Western blots image of MLKL in Figure 6A.

Figure 6A

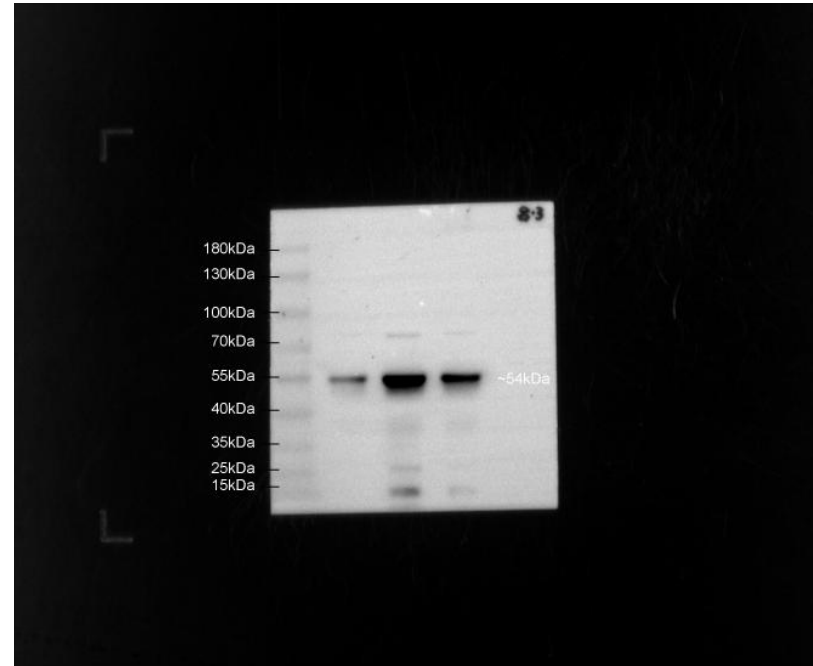

This is the original Western blots image of β -actin in Figure 6A.

Figure 6B

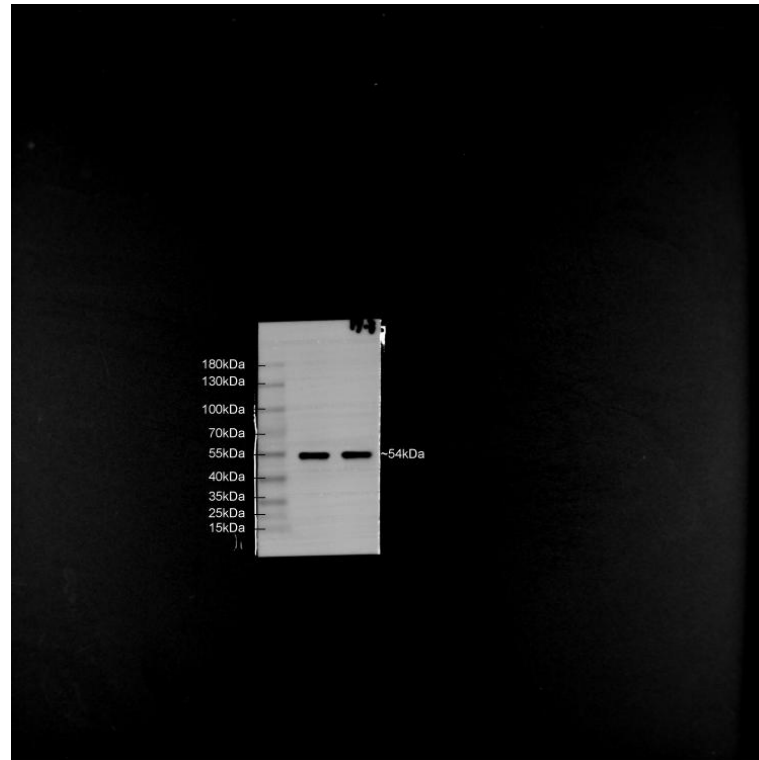

This is the original Western blots image of pMLKL(SK-HEP-1) in Figure 6B.

Figure 6B

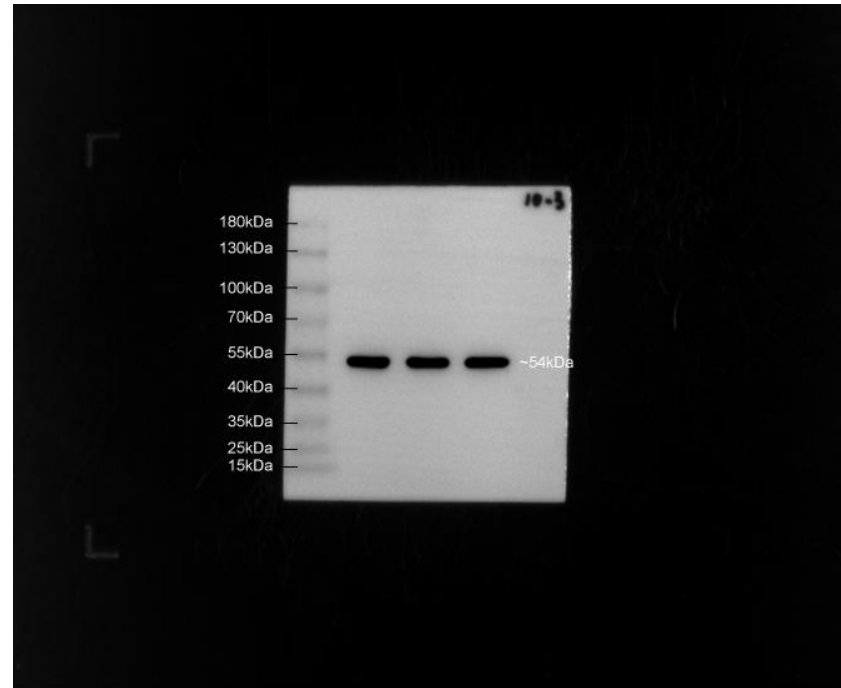

This is the original Western blots image of pMLKL(BEL-7402) in Figure 6B.

Figure 6B

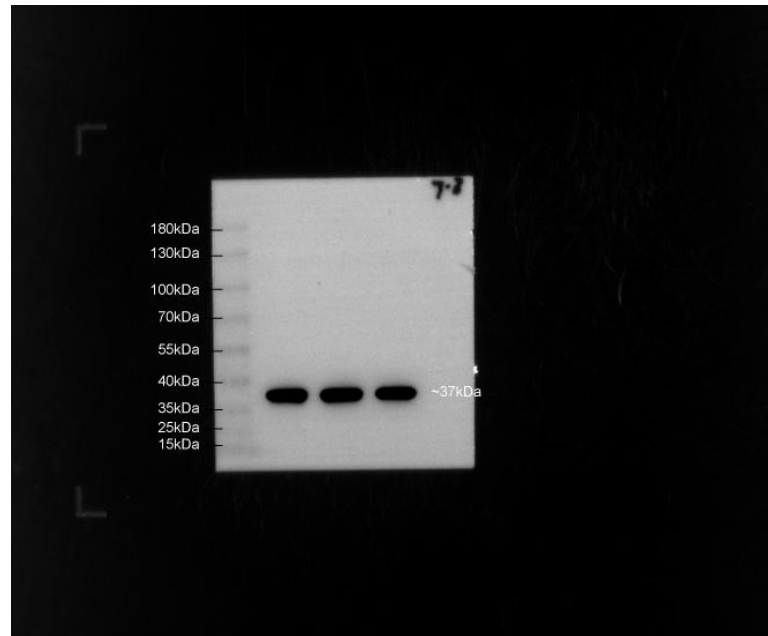

This is the original Western blots image of MLKL(SK-HEP-1) in Figure 6B.

Figure 6B

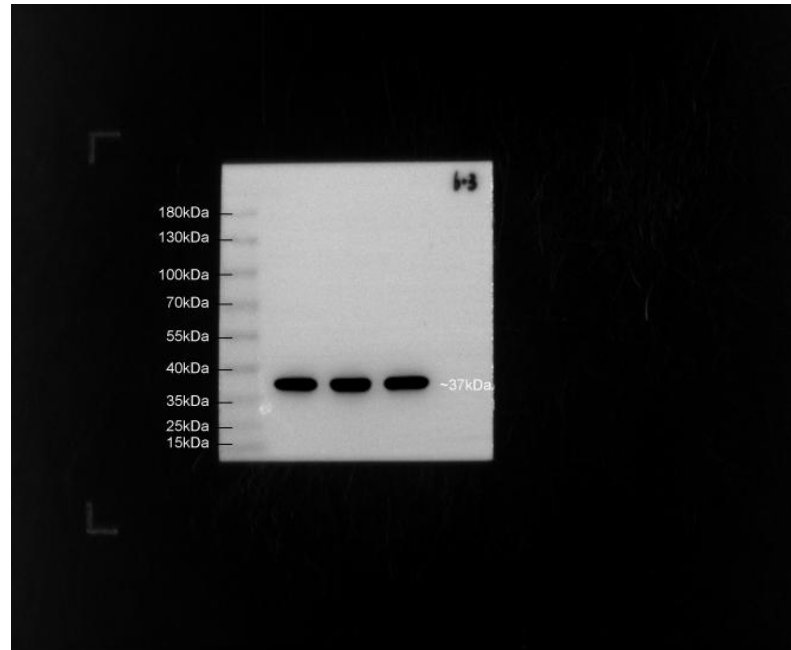

This is the original Western blots image of MLKL(BEL-7402) in Figure 6B.

Figure 6B

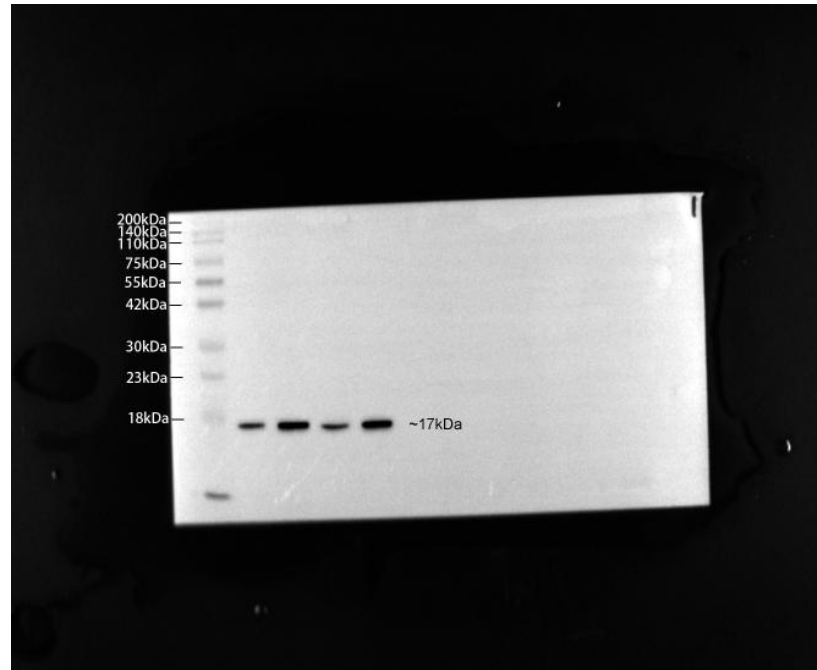

This is the original Western blots image of GAPDH(SK-HEP-1) in Figure 6B.

Figure 6B

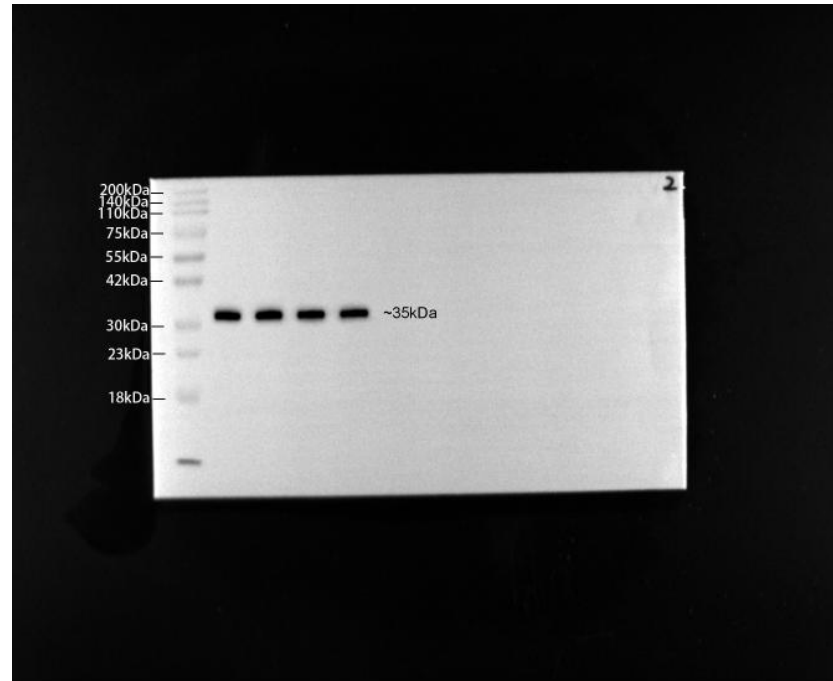

This is the original Western blots image of GAPDH(BEL-7402) in Figure 6B.

Figure 6C

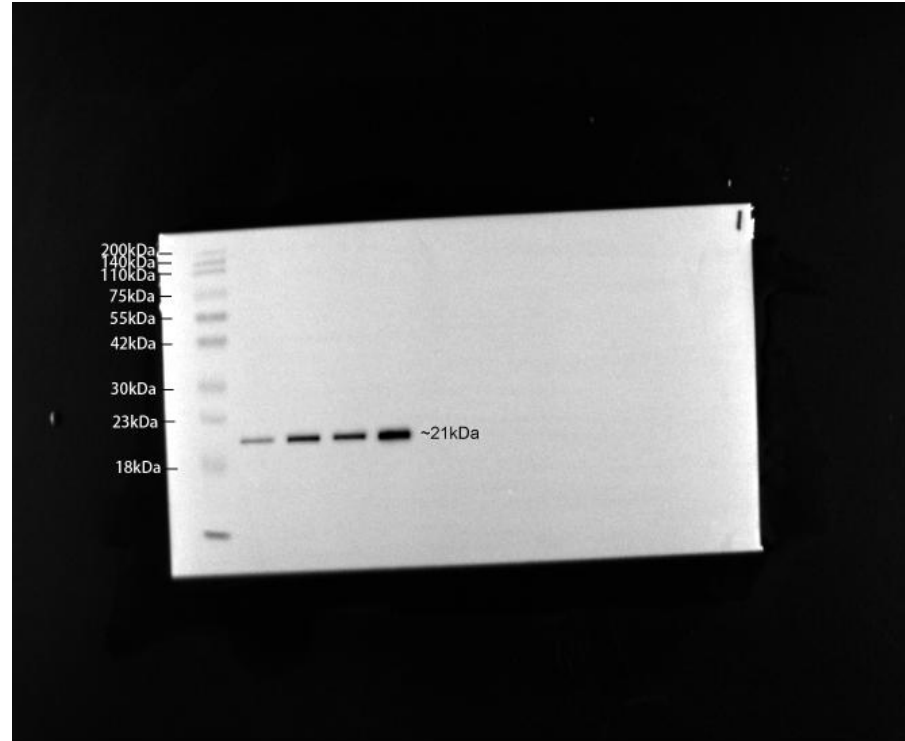

This is the original Western blots image of Cleaved Caspase 3 in Figure 6C.

Figure 6C

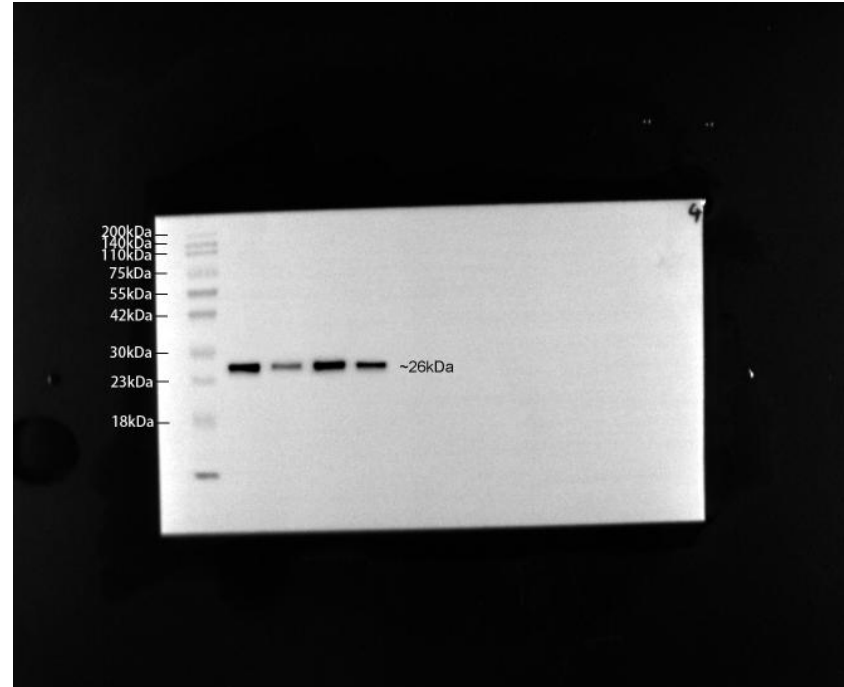

This is the original Western blots image of Caspase 3 in Figure 6C.

Figure 6C

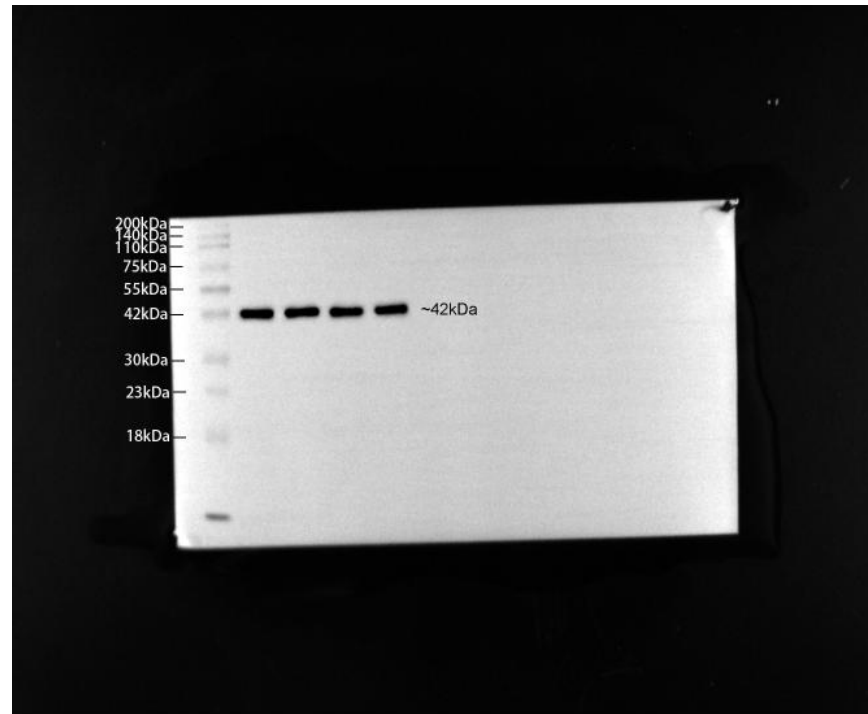

This is the original Western blots image of Bax in Figure 6C.

Figure 6C

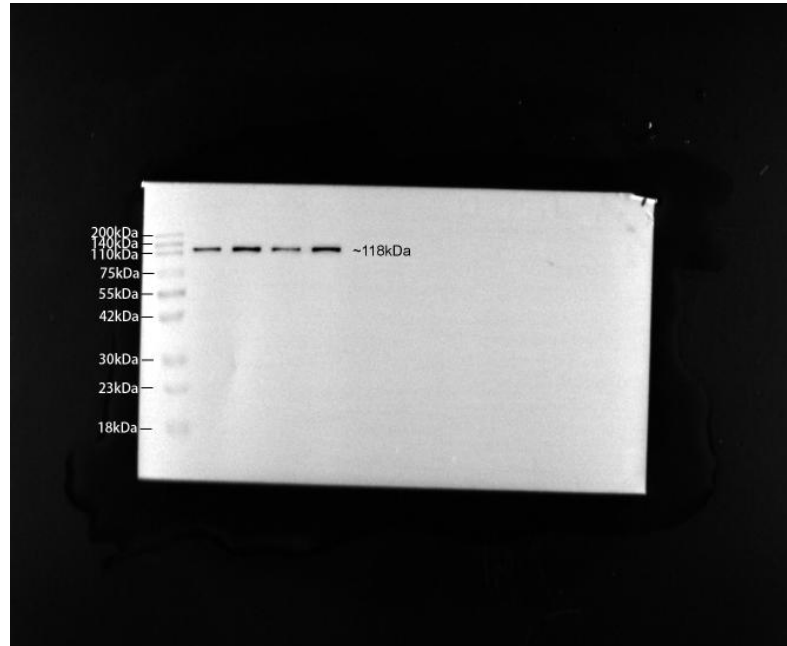

This is the original Western blots image of Bcl-2 in Figure 6C.

Figure 6C

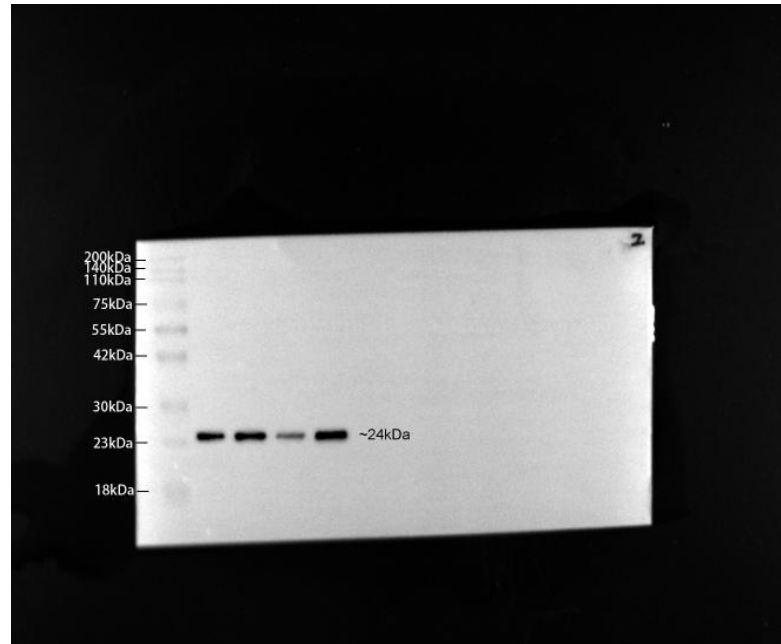

This is the original Western blots image of β -actin in Figure 6C.

Figure 6E

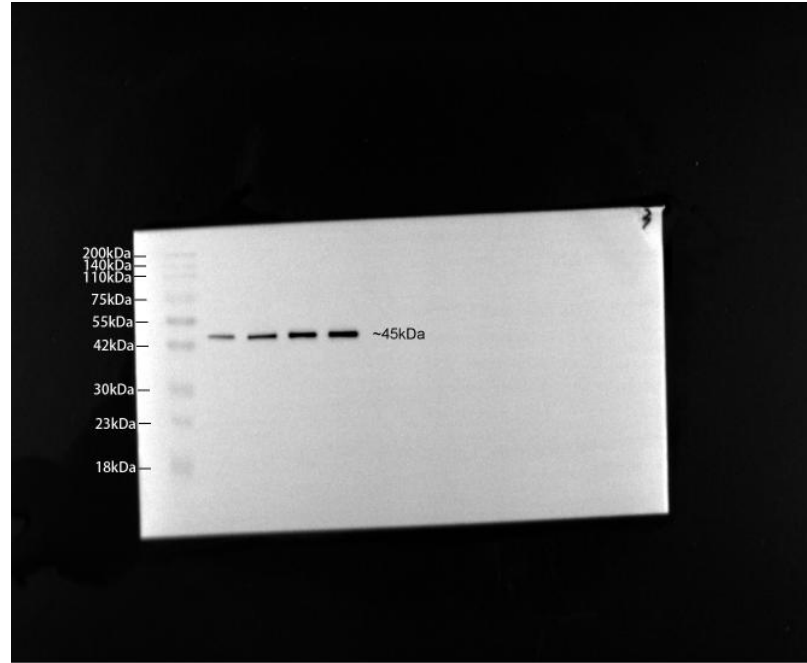

This is the original Western blots image of NLRP3 in Figure 6E.

Figure 6E

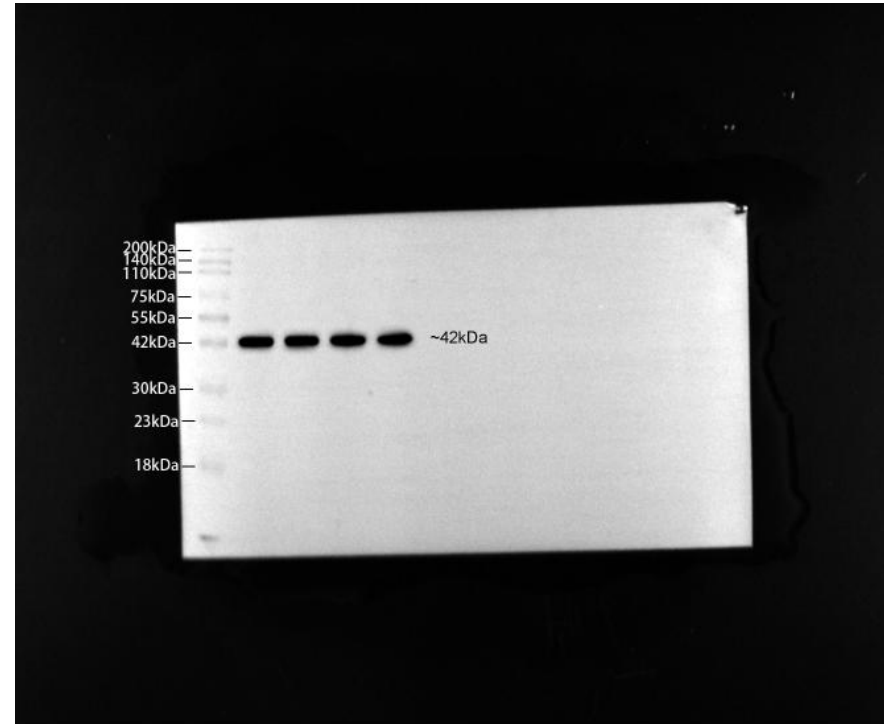

This is the original Western blots image of ASC in Figure 6E.

Figure 6E

This is the original Western blots image of Caspase 1 in Figure 6E.

Figure 6E

This is the original Western blots image of β -actin in Figure 6E.
