

Appendix 4. Summary of the ANOVA comparing the species richness and total abundance of wild bees across different sampling methods. d.f = degrees of freedom.

Variable		df	<i>F</i>	<i>p</i>
Log (Species richness, S)	Sampling method	11	1.366	0.212
	Residuals	62		
Log (Abundance, N)	Sampling method	10	0.635	0.777
	Residuals	52
