

Laboratory clusters

Standardised mean

C0: Healthy and low inflammation

C1: Healthy/possible inflammation

C2: Potential hyponatremia

C3: Poor kidney function

C4: Possible diabetes

C5: Inflammation/Hyponatremia

C6: Possible impaired glucose tolerance

C7: Chronic kidney disease

C8: Possible underlying diseases

Key: Albumin (moderate=good), Cr: Creatinine, CRP: C-reactive protein (high=bad), eGFR: estimated Glomerular filtration rate (high=good), Hgb: Haemoglobin (low=good), Na+: Sodium (moderate=good), Ur:Cr=Urea-to-Creatinine ratio (low=good)
