

Default Question Block

This survey is for research conducted by the School of Osteopathic Medicine in Arizona (SOMA) at A. T. Still University, Eastern Virginia Medical School (EVMS) and University of Central Florida College of Medicine (UCF COM). The purpose of this study is to increase understanding of student resource use across multiple institutions (both osteopathic and allopathic). Your participation is voluntary and will only involve completing the questionnaire. Completing this questionnaire should require 15 minutes of your time. Please do not use any outside assistance while answering these questions. Please answer each question honestly and to the best of your ability. No names or other identifying information will be used in discussing or reporting data. The results of this research might be published. Any research reports or publications resulting from this research will not reveal your name or identity. All of your data will remain confidential. There are no direct benefits to you for completing this questionnaire. By completing the questionnaire, you agree to allow your survey responses to be used for this study. Your participation is voluntary, and you may refuse to complete the questionnaire or stop at any time if you wish.
