

A Age distributions separate for the different types of charges

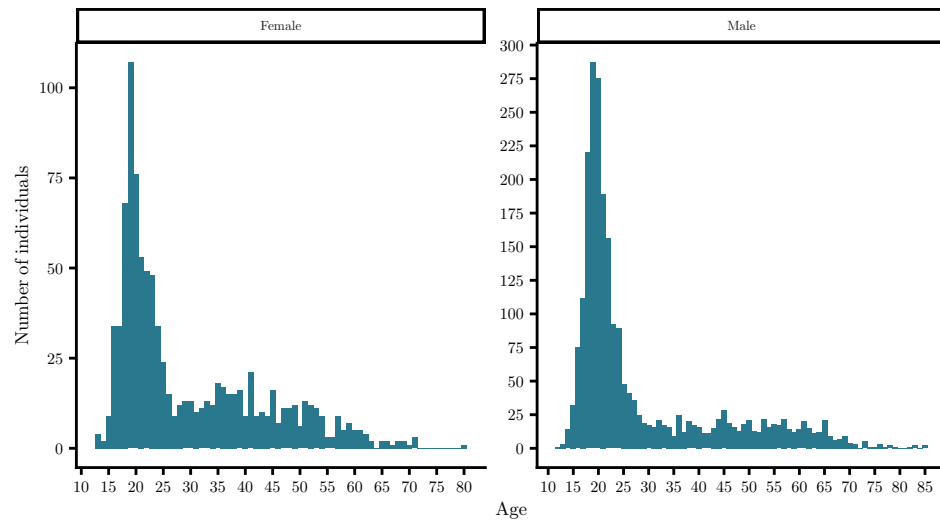

Figure S1: Age distribution of offenders charged for a drug offence as their first charge 2010.

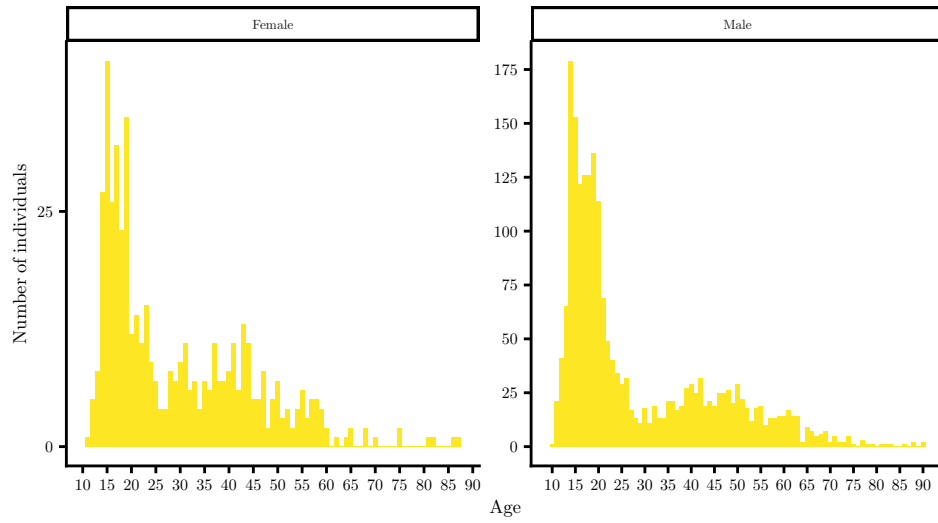

Figure S2: Age distribution of offenders charged for a violence offence as their first charge 2010.

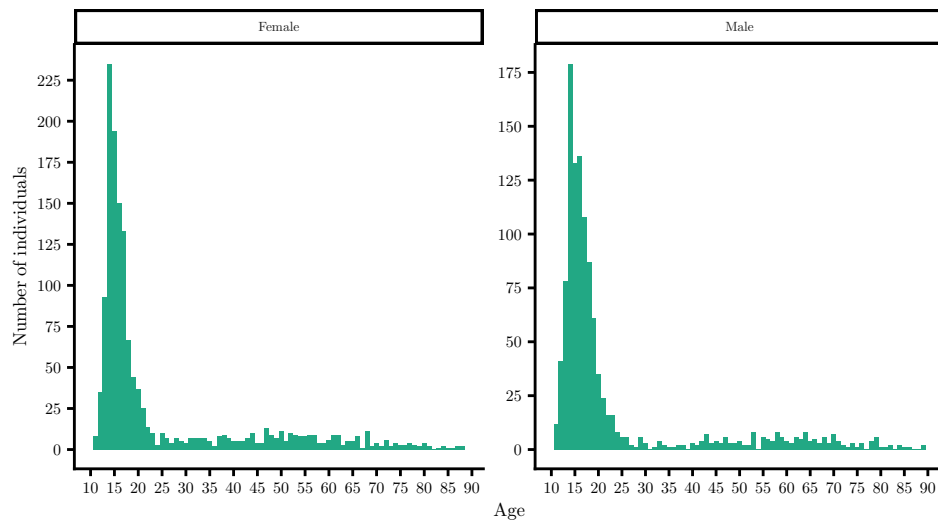

Figure S3: Age distribution of offenders charged for a profit offence as their first charge 2010.

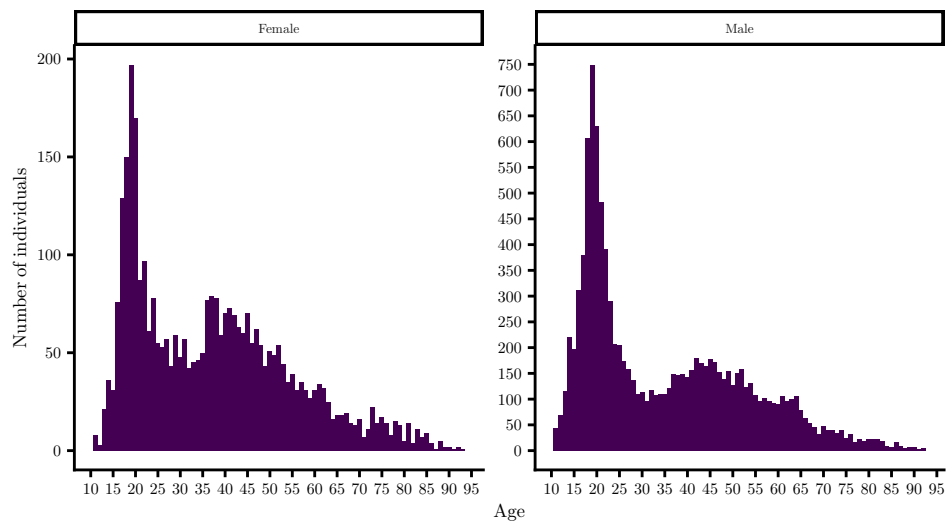

Figure S4: Age distribution of offenders charged for an other offence as their first charge 2010.

B Number of individuals who are charged for the first time without any prior charges, convictions or prison releases before 2010

Due to our sample condition, the number of onsets prior to 2010 are not as appropriate as those in the years after 2010.

Year of onset	2005	2008	2009	2010	2011	2012	2015
Number of individuals	5 136	7 774	13 117	22 610	20 962	20 620	17 185

Table S1: Number of individuals who are charged for the first time between 2005-2015, without any prior charges, convictions or prison releases before 2010.
