

Supplementary material

Hippocampus

Figure 1. Expression of CBS in the hippocampus. Example images from 3 different animals from control group

Figure 2. Expression of CBS in the hippocampus. Example images from 3 different animals from experimental group (olanzapine administration).

Striatum

Figure 3. Expression of CBS in the striatum. Example images from 3 different animals from control group

Figure 4. Expression of CBS in the striatum. Example images from 3 different animals from experimental group (olanzapine administration).

Hippocampus

Figure 5. Expression of HO-2 in the hippocampus. Example images from 3 different animals from control group.

Figure 6. Expression of HO-2 in the hippocampus. Example images from 3 different animals from experimental group (olanzapine administration).

Striatum

Figure 7. Expression of HO-2 in the striatum. Example images from 3 different animals from control group.

Figure 8. Expression of HO-2 in the striatum. Example images from 3 different animals from experimental group (olanzapine administration).
