Supplementary Material S3

Overview of an exploratory factor analysis for the six item version of the Eco-Grief Questionnaire with two factors

VALIDATION OF ECO-EMOTION QUESTIONNAIRES

Table S1. Factor Loadings of an Exploratory Factor Analysis for the Eco-Grief Questionnaire.

Item	EFA	
	Factor 1	Factor 2
It makes me sad that I don't see many of the plants and animals I used to see often.	.502*	.310*
The wildlife around me has changed in a disturbing way.	.231*	.346*
I feel some sense of loss because of climate change impacts that are becoming apparent in my local area.	.758*	.143
It is frightening that climate change is causing the destruction of natural areas at such a dramatic rate that they will never be the same again.	.164*	.706*
Watching videos of the destruction of the environment makes me cry.	.884*	-.011
I am not comforted by the thought that nature can regenerate itself to some extent, because what we have destroyed will never return.	-.008	.789*

Note. $N = 871$. * $p < .05$.
