

Supplementary Figure 1 Relative expression levels of three candidate genes under different stresses.

The relative expression levels of *OsSAPK6* (a), *OsZIP60* (b), and *OsBAK1-8* (c) in response to drought, flood, cold, osmotic and ABA stress (Os) at 0 h and 12 h were presented based on the original data from public database TENOR (<https://tenor.dna.affrc.go.jp>).
