

SUPPLEMENTARY INFORMATION

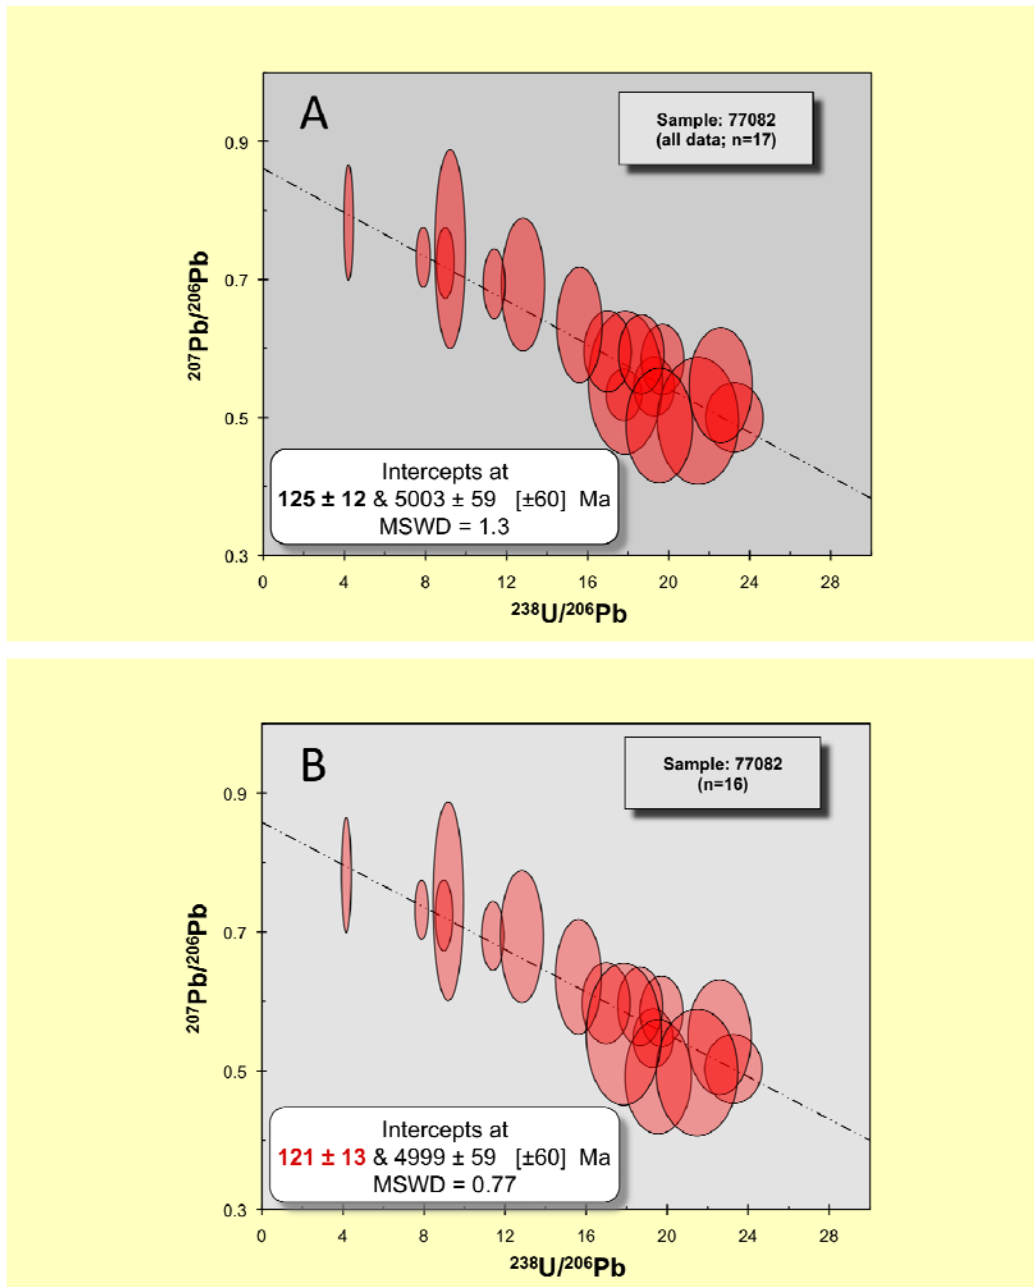

Supplementary Figure S1. U–Pb data in inverse-Concordia plots for sample 77063

(a) shows April (blue ellipses) and June (red ellipses) sessions for all the data ($n = 40$) and (b) shows April (blue ellipses) and June (red ellipses) sessions for data minus the rejected data ($n = 28$). Ellipses show 1σ errors.

Supplementary Figure S2. U–Pb data in inverse-Concordia plots for sample 77081.

(a) shows all the data ($n = 12$) and (b) all data minus the rejected data ($n = 8$). Ellipses show 1σ errors.

Supplementary Figure S3. U–Pb data in inverse-Concordia plots for sample 77082.

(a) shows all the data (n = 17) and (b) data minus the rejected data. Ellipses show 1 σ errors.
