

Supplementary Figures

Supplementary Figure 1. Quantification of western blots for APP, NCT, PS1-NTF, PS1-CTF, and Aph1 (all p-value > 0.05).

Supplementary Figure 2. A) Effect of hypoxia on Aβ38. B) The gene expression of APP and PSEN1 assessed by qPCR. Data are mean ± s.d. P values were determined by one-way ANOVA followed by Tukey (all p-value > 0.05).
