Dear all,

the manuscript entitled "*RNF40 epigenetically modulates glycolysis to support the aggressiveness of basal-like breast cancer*" is finally revised and ready to be submitted to *Cell Death and Disease*. Before this step, though, I would like to kindly ask all coauthors responding to this email that you agree with your coauthorship, with the revised version of this work as well as with the newly added coauthor Dr. Kathrin Kusch from the Functional Auditory Genomics Group.

Attached you can find the revised files of this work. Also, as the deadline for submission is approaching and if you have no comments/input on this work, I would appreciate if you could respond to this email at your earliest convenience until this Friday (7 July 2023).

Last but not least, I would like to thank each of you who contributed to this round and attractive story that finally reached its end.

With the warmest wishes,

Evan

Evangelos Prokakis, Dr. rer. nat.

Dear Evan,

Great! And an early congratulations as well. The email last week was basically "accepted in principle". :-)

Thanks again for bringing this to a (hopefully soon) successful end!

And, of course, YES, I happily agree to the re-re-submission. Good luck!!

Best wishes,

Steve

Lieber Klaus,

ich hoffe, es geht Dir gut!

Wie Du bestimmt gelesen hast, ist unserem letzten Manuskript bezüglich RNF40 und Brustkrebs angenommen worden.

Um das Publikationsprozess voranzutreiben, brauchen wir ein Einverständnis der co-Autoren, dass sie mit der akzeptierten Version des Manuskripts und dessen Autorenreihenfolge einverstanden sind. Kannst Du mir bitte dein OK per email zukommen lassen?

Danke Dir im Voraus!!

Liebe Grüße nach Hamburg
Florian

Today, 18:24

Lieber Florian, ich bin sehr viel unterwegs und daher entschuldige meine späte Antwort.
Ich bin mit dem revidierten Manuskript und der Autorenreihenfolge einverstanden.
Herzlichen Glückwunsch!
Beste Grüße, Klaus
