

Supplementary information, Fig. S19

Supplementary information, Fig. S19. Distribution of the average angular velocity in the preferred and non-preferred firing directions for head direction cells in the somatosensory cortex.

a The distribution of the average angular velocity in the “preferred firing directions” and “non-preferred firing directions” for all identified head direction cells in the somatosensory cortex.

b The comparison of the angular velocity in the “preferred firing directions” and “non-preferred firing directions”. $n = 70$, $P = 0.47$, two-tailed paired t -test, n.s., not significant.
