

Supplementary information, Fig. S3 | Cryo-EM analysis of the NR subunit.

a, Angular distribution of the single-particle cryo-EM reconstruction for the NR subunit. Each cylinder represents one view and the height of the cylinder is proportional to the number of particles for that view. **b**, Directional Fourier Shell correlation (FSC) curves and directional FSC histograms for cryo-EM reconstruction of the NR subunit. All directional FSC curves were calculated using the following website: <https://3dfsc.salk.edu>¹.

¹Tan, Y. Z. *et al.* Addressing preferred specimen orientation in single-particle cryo-EM through tilting. *Nat Methods* **14**, 793-796, doi:10.1038/nmeth.4347 (2017).
