

Supplementary information, Fig. S5 | The EM density maps for the short arm regions of the Y complexes.

a, The overall EM density map for the short arm of inner Y complex. The original EM map is shown in two left panels, which are related by a 90-degree rotation. The EM map with structure docking is shown in two right panels. **b**, The overall EM density map for the short arm of outer Y complex. The original EM map is shown in two left panels, which are related by a 90-degree rotation. The EM map with structure docking is shown in two right panels.
