

Fig. S9 Binding characterization of aRBD-2, aRBD-7, and aRBD-2-7 to the RBDs of SARS-CoV-2 variants using ELISA. aRBD-2-Fc (a), aRBD-7-Fc (b), and aRBD-2-7-Fc (c) binding to the RBDs of SARS-CoV-2 variants were characterized using ELISA. EC₅₀ were calculated by fitting the OD₄₅₀ values from the serially diluted antibody to a sigmoidal dose-response curve. Error bars indicate mean $\pm$ standard deviation (SD) from two independent experiments.
