

Description of Supplementary Files

File Name: Supplementary Data 1

Description: Differentially expressed genes from RNA sequencing analysis.

File Name: Supplementary Data 2

Description: Gene ontology analysis of DEGs affected by temperature.

File Name: Supplementary Data 3

Description: Gene ontology analyses of DEGs by cluster.

File Name: Supplementary Data 4

Description: Gene ontology analyses of DEGs by group.

File Name: Supplementary Data 5

Description: Promoter analyses of DEGs by cluster and group.

File Name: Supplementary Data 6

Description: Raw genevestigator output corresponding to Supplementary Figures 11-13.
