

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Homologs of the *B. cenocepacia* H111 ham genes in bacteria.

File Name: Supplementary Data 2

Description: Genes down-regulated in the *hamD* mutant.

File Name: Supplementary Data 3

Description: Genes up-regulated in the *hamD* mutant.

File Name: Supplementary Data 4

Description: Differentially regulated genes in the *hamD* mutant in the presence of 50 μ M valdiazene.

File Name: Supplementary Data 5

Description: Oligonucleotides used in this study.
