

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Summary of pathological and immunohistochemical analyses. Eight animals were studied at each tumor stage. Detailed analysis of the TdLN was performed in 5 animals at each tumor stage. Quantitative results are expressed as mean $\pm$ SD

File Name: Supplementary Data 2

Description: Gene signature of tumor-induced Marilyn pTregs as compared to host nTregs and pTregs generated in tumor-free mice

File Name: Supplementary Data 3

Description: Gene signature of tumor-induced anergic Marilyn cells as compared to effector cells generated in tumor-free mice

File Name: Supplementary Data 4

Description: Summary of antibodies used in the study
