

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: contains the list of differentially expressed genes in the bulk epithelial and stromal fractions of M6-Hh expressing tumors in comparison to M6-Ctrl or M6-Hh tumor + SMOi, as well as results of Gene Set Enrichment analysis.

File Name: Supplementary Data 2

Description: contains the list of differentially expressed genes in the CAF population of M6-Hh expressing tumors in comparison to CAFs from M6-Ctrl or M6-Hh tumor + SMOi from single cell RNA-Seq analysis.
