

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: ICD-10 diagnosis incidence and differences for men and woman, and the 95% Bayesian Credible Interval.

File Name: Supplementary Data 2

Description: ICD-10 age of first hospital diagnosis for men and women, the mean difference, and the 95% Confidence Interval and the False Discovery Rate.

File Name: Supplementary Data 3

Description: ICD-10 diagnosis co-occurrences and directionality, and the 95% Bayesian Credible Interval.

File Name: Supplementary Data 4

Description: ICD-10 and Global Burden of Disease mapping and sex-specificity.

File Name: Supplementary Data 5

Description: Global Burden of Disease diagnosis incidence and differences for men and woman, and the 95% Bayesian Credible Interval.

File Name: Supplementary Data 6

Description: Global Burden of Disease age of first hospital diagnosis for men and women, the mean difference, and the 95% Confidence Interval and the False Discovery Rate.

File Name: Supplementary Data 7

Description: Global Burden of Disease diagnosis co-occurrences and directionality, and the 95% Bayesian Credible Interval.

File Name: Supplementary Data 8

Description: ICD-10 codes and sex specificity.
